- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. - (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Calculation Agent shall in its reasonable discretion (§ 315 BGB) adjust the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been

specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.

- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a License Termination Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent in its reasonable discretion (§ 315 BGB) determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any references to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").
- (6) The application of §§ 313, 314 BGB remains reserved.

D.6	<p>Key information on the key risks that are specific to the securities</p> <p>In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption.</p> <ul style="list-style-type: none"> ● Potential conflicts of interest <p>The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders.</p> <ul style="list-style-type: none"> ● Key risks related to the Securities <p>Key risks related to the market</p> <p>Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities.</p> <p>The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the Purchase Price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time.</p> <p>Key risks related to the Securities in general</p> <p>The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme.</p> <p>An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.</p> <p>The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects).</p> <p>The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made.</p> <p>The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital.</p> <p>Risks related to Underlying-linked Securities</p> <p><i>Risks arising from the influence of the Underlying or its components on the market value of the Securities</i></p> <p>The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the</p>

Additionally, the market value of the Securities will be affected by a number of Underlying-related factors.</p> <p><i>Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods</i></p> <p>Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested.</p> <p><i>Risks related to a Strike</i></p> <p>A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components.</p> <p><i>Risks related to a Ratio</i></p> <p>A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment</p> <p><i>Currency and Currency Exchange Rate risk with respect to the Underlying or its components</i></p> <p>If the Underlying or its components are denominated in a currency other than the Specified Currency, there is a Currency Exchange Rate risk, as long as it is not excluded in the relevant Final Terms.</p> <p><i>Risks related to Adjustment Events</i></p> <p>Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities.</p> <p><i>Risks related to structure specifics</i></p> <p>Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.</p> <p><i>Risks related to Call Securities</i></p> <p>If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to Put Securities</i></p> <p>If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to the Knock-out Barrier</i></p> <p>If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities.</p> <p><i>Risks related to Call Events</i></p> <p>Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the Purchase Price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment.</p>

		<p><i>Risks related to Market Disruption Events</i></p> <p>The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion. Security Holders are not entitled to demand interest due to such delayed payment.</p> <p><i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i></p> <p>The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components.</p> <ul style="list-style-type: none"> • Key risks related to the Underlying or its components <p><i>No rights of ownership of the Underlying or its components</i></p> <p>The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends or other distributions or other rights) with respect to the Underlying or its components.</p> <p>Key risks related to shares</p> <p>The performance of Share-linked Securities (i.e. Securities related to indices as components of the Underlying and shares as index components) depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder.</p> <p>Key risks related to indices</p> <p>The performance of Index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer may neither have influence on the respective index nor the index concept. If the Issuer also acts as sponsor or calculation agent of the index, this may lead to conflicts of interest. In general, an index sponsor does not assume liability. Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders may not or only partly participate in dividends or other distributions in relation to the index components. If the index entails a leverage factor, investors bear an enhanced risk of losses. Indices may be affected disproportionately negative in the case of an unfavourable development in a country, region or industrial sector. Indices may include fees which negatively affect their performance. Due to regulatory measures in the future the Index may not be used as Underlying of the Securities or only subject to changed conditions.</p> <p>The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.</p>

Même dans le cas où un marché secondaire existe, il ne peut pas être exclu que le Porteur de Titre ne pourrait pas être en mesure de disposer des Titres dans le cas d'une évolution défavorable du Sous-Jacent ou de ses composants ou d'un taux de change, e.g. si un tel développement se produit en dehors des heures de négociation des Titres.</p> <p>La valeur marchande des Titres sera affectée par la solvabilité de l'Emetteur et par un certain nombre d'autres facteurs (par exemple les taux de change, les taux d'intérêts et de rendement en vigueur, le marché des titres similaires, les circonstances générales économiques, politiques et cycliques, la négociabilité des Titres et des facteurs liés aux Sous-Jacents) et pourrait être inférieure de manière significative au Prix d'Achat. Les Porteurs de Titres ne peuvent pas compter sur la possibilité de couvrir de manière suffisante les risques de prix liés aux Titres à tout moment.</p> <p><i>Risques principaux relatifs aux Titres en général</i></p> <p>L'Emetteur pourrait manquer à toutes ou partie de ses obligations liées aux Titres, par exemple en cas de faillite de l'Emetteur ou en raison d'interventions gouvernementales ou réglementaires. Il n'existe pas de régime de protection des dépôts, ni aucun autre régime de compensation, pour protéger contre ce risque.</p> <p>Un investissement dans les Titres pourrait être illégal ou défavorable pour un investisseur potentiel ou être inapproprié, étant donné sa connaissance ou son expérience, ses besoins financiers, ses objectifs et sa situation.</p> <p>Le taux réel de rendement d'un investissement dans les Titres pourrait être réduit, nul ou même négatif (par exemple en raison de coûts accessoires liés à l'achat, la détention ou la vente des Titres, d'une future dépréciation monétaire (inflation) ou d'impacts fiscaux).</p> <p>Le montant différentiel pourrait être inférieur au Prix d'Emission ou au prix d'achat correspondant et, dans certains cas, aucun intérêt ou paiement régulier ne sera versé.</p> <p>Le produit issu des Titres pourrait ne pas couvrir le remboursement des intérêts ou du capital dus au titre d'un crédit pour financer l'achat des Titres, et ainsi requérir des capitaux additionnels.</p> <p><i>Risques relatifs aux Titres liés à un Sous-Jacent</i></p> <p><i>Risques liés à l'influence du Sous-Jacent ou de ses composants sur la valeur marchande des Titres</i></p> <p>La valeur marchande des Titres et les montants dus en vertu des Titres dépendent de manière significative du prix du Sous-Jacent ou de ses composants. Il est impossible de prédire l'évolution à venir du prix du Sous-Jacent ou de ses composants. De plus, la valeur marchande des Titres sera affectée par certains facteurs liés au Sous-Jacent.</p> <p><i>Risques liés au fait que l'observation du Sous-Jacent ou de ses composants n'a lieu qu'à certaines dates, horaires ou périodes déterminées</i></p> <p>Etant donné le fait que l'observation du Sous-Jacent ou de ses composants ne peut intervenir qu'à des dates, horaires ou périodes déterminées, les montants dus en vertu des Titres pourraient être largement inférieurs au prix suggéré par</p>

	<p>le Sous-Jacent ou ses composants.</p> <p><i>Risques liés à un Strike</i></p> <p>Un Strike peut conduire les Porteurs de Titres à participer soit, dans une moindre mesure, à une performance favorable du Sous-Jacent ou de ses composants ou, dans une plus grande mesure, dans une évolution défavorable du Sous-Jacent ou de ses composants.</p> <p><i>Risques liés à un Ratio</i></p> <p>L'effet d'un ratio pourrait être que le Titre devienne en termes économiques semblable à un investissement direct dans le Sous-Jacent en question, ou ses composants, mais sans être toutefois totalement comparable à un tel investissement direct.</p> <p><i>Risque lié aux Devises et aux Taux de Change à l'égard du Sous-Jacent ou de ses composants</i></p> <p>Si le Sous-Jacent ou ses composants sont libellés dans une devise autre que la Devise Prévue, il existe un risque de Taux de Change, à moins qu'il ne soit exclu dans les Conditions Définitives concernées.</p> <p><i>Risques liés aux Cas d'Ajustement</i></p> <p>Les ajustements peuvent avoir un effet négatif significatif sur la valeur et la performance future des Titres ainsi que sur les montants distribués en vertu des Titres. Les cas d'ajustements peuvent éventuellement donner lieu à une résiliation anticipée exceptionnelle des Titres.</p> <p><i>Risques liés aux particularités de structure</i></p> <p>En raison de l'effet de levier caractéristique des Titres, la performance du Sous-Jacent pourrait avoir un impact négatif démesurément important sur la valeur des Titres. La valeur temporelle diminue en fonction du temps restant pour atteindre la maturité. Dans ce cas la valeur marchande des Titres deviendra nulle à la dernière Date d'Exercice possible.</p> <p><i>Risques liés aux Titres Call</i></p> <p>Si le prix du Sous-Jacent diminue, les Porteurs de Titres pourraient perdre la totalité de leur capital investi.</p> <p><i>Risques liés aux Titres Put</i></p> <p>Si le prix du Sous-Jacent augmente, les Porteurs de Titres pourraient perdre la totalité de leur capital investi.</p> <p><i>Risques liés à la Barrière de Knock-Out</i></p> <p>Si un Cas de Knock-out survient, le Porteur de Titre pourrait subir une perte immédiate partielle ou totale de son investissement, ou perdre le droit de demander le versement de certains montants liés aux Titres.</p> <p><i>Risques liés aux Cas de Rappel</i></p> <p>Si au moins un Cas de Rappel se produit l'Emetteur est en droit de racheter de manière exceptionnelle les Titres à leur valeur marchande. Si la valeur marchande des Titres au moment opportun est inférieure au Prix d'Emission ou au Prix d'Achat, le Porteur de Titres concerné subira une perte totale ou partielle de son capital investi même si les Titres prévoient un versement minimum conditionnel.</p> <p><i>Risques liés aux Cas de Perturbation du Marché</i></p> <p>L'Agent de Calcul peut différer les valorisations et les versements et effectuer des déterminations selon son appréciation raisonnable. Les Porteurs de Titres ne sont pas en droit d'exiger des intérêts en raison de tels délais de paiement.</p> <p><i>Risques liés aux effets négatifs des accords de couverture par l'Emetteur sur les Titres</i></p> <p>La conclusion ou la liquidation des opérations de couverture par l'Emetteur pourraient, dans certains cas, nuire au prix du Sous-Jacent ou de ses composants.</p>

		<ul style="list-style-type: none"> Principaux risques relatifs au Sous-Jacent ou ses composants <p><i>Absence de droit de propriété concernant le Sous-Jacent ou ses composants</i></p> <p>Le Sous-Jacent ou ses composants ne seront pas détenus par l'Emetteur pour le bénéfice des Porteurs de Titres, et par conséquent, les Porteurs de Titres n'obtiendront aucun droit de propriété (par exemple, droits de vote, droits de percevoir des dividendes ou d'autres distributions, ou autres droits) concernant le Sous-Jacent ou ses composants.</p> <p>Risques principaux relatifs à des actions</p> <p>La performance de Titres liés à des Actions (c-à-d. Titres dont les composants du Sous-Jacent sont des indices et dont les composants de l'indice sont des actions) dépend de la performance des actions en question, qui peut dépendre de certains facteurs. Les versements de dividendes peuvent avoir un effet négatif pour le Porteur de Titre.</p> <p>Risques principaux relatifs aux indices</p> <p>La performance des Titres liés à des Indices dépend de la performance des indices en question, qui dépend en grande partie de la composition et de la performance des composants de ces indices. L'Emetteur ne pourrait pas influencer ni l'indice en question ni le concept de l'indice. Si l'Emetteur intervient également en tant que sponsor ou agent de calcul de l'indice, ceci pourrait donner lieu à des conflits d'intérêt. De manière générale, la responsabilité du sponsor d'un indice n'est pas engagée. En général, un indice peut être modifié, résilié ou remplacé à tout moment par un autre indice lui succédant. Les Porteurs de Titres ne pourraient pas, ou alors seulement en partie, bénéficier des dividendes ou autres distributions liés à des composants de l'indice. Si l'indice comporte un élément de levier, les investisseurs sont exposés à un risque de pertes accru. Les Indices peuvent être affectés de manière disproportionnée négative en cas de développement défavorable dans un pays, une région ou un secteur industriel. Les indices peuvent prévoir des frais qui impactent leur performance de manière négative. En raison des mesures réglementaires dans l'avenir l'Indice ne peut pas ou seulement aux conditions modifiées, être utilisé comme Sous-Jacent des Titres.</p> <p>Les Titres ne sont pas à capital garanti. Les investisseurs doivent être conscients qu'ils sont susceptibles de perdre tout ou partie de la valeur de leur investissement.</p>
