and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.

- (2) *Typing and calculation errors:* Obvious typing and calculation errors or similar obvious errors in these Terms and Conditions entitle the Issuer to rescission vis-à-vis the Security Holders. The rescission must be declared without undue delay upon obtaining knowledge of such cause for rescission in accordance with § 6 of the General Conditions. Following such rescission by the Issuer, the Security Holder can instruct his depository bank to submit a duly completed redemption declaration to the Principal Paying Agent on a form available there and by giving all information and declarations required by the form (the "**Redemption Declaration**") and demand the refunding of the Acquisition Price against transfer of the Securities to the account of the Principal Paying Agent with the Clearing System. The Issuer will until at the latest 30 calendar days after receipt of the Redemption Declaration or the Securities by the Principal Paying Agent (whatever is the later date) make the Acquisition Price available to the Principal Paying Agent, which will transfer it to the account listed in the Redemption Declaration. The Security Holders will be informed of such an offer as well as the amended provisions together with the declaration of rescission in accordance with § 6 of the General Conditions. Such an offer is deemed to be accepted by the Security Holder (with the effect that the consequences of the rescission do not become effective) if the Security Holder does not within four weeks after the offer becoming effective pursuant to § 6 of the General Conditions demand the repayment of the Acquisition Price by submitting a duly completed Redemption Declaration via his depository bank to the Principal Paying Agent and the transfer of the Securities to the account of Principal Paying Agent with the Clearing System in accordance with paragraph (2) above. The Issuer will refer to this effect in the notice.
- (4) *Acquisition Price:* As used in paragraphs (2) and (3) above, the "**Acquisition Price**" is the actual acquisition price paid by each Security Holder (as stated and confirmed in the Redemption Declaration) or the weighted arithmetic mean of the trading prices of the Securities, as determined by the Issuer in its reasonable discretion (§ 315 BGB), on the Banking Day preceding the declaration of rescission pursuant to paragraph (2) above, respectively, depending on which of these amounts is the higher one. If a market disruption pursuant to § 7 of the Special Conditions exists on the Banking Day preceding the declaration of rescission pursuant to paragraph (2) above, the last Banking Day preceding the rescission pursuant to paragraph (2) above on which no market disruption existed shall be decisive for the determination of the Acquisition Price in accordance with the preceding sentence.

- (5) *Incomplete or inconsistent provisions:* The Issuer is entitled to correct or amend incomplete or inconsistent provisions in these Terms and Conditions in its reasonable discretion (§ 315 BGB). Only corrections and amendments that are reasonable for the Security Holders taking into account the interests of the Issuer and that in particular do not materially impair the legal and financial situation of the Security Holders will be permitted. The Security Holders will be informed of such corrections and supplementations pursuant to § 6 of the General Conditions.
- (6) *Adherence to corrected Terms and Conditions:* If the Security Holder was aware of typing or calculation errors or similar errors in these Terms and Conditions when purchasing the Securities, the Issuer is entitled to adhere to the Terms and Conditions amended accordingly irrespective of paragraphs (2) to (5) above.

- (a) in general the suspension or restriction of trading on the exchanges or the markets on which the securities that form the basis of the Underlying are listed or traded, or on the respective futures exchanges or on the markets on which Derivatives of the Underlying are listed or traded;
- (b) in relation to individual securities which form the basis of the Underlying, the suspension or restriction of trading on the exchanges or on the markets on which such securities are traded or on the respective futures exchange or the markets on which derivatives of such securities are traded;
- (c) in relation to individual Derivatives of the Underlying, the suspension or restriction of trading on the futures exchanges or the markets on which such derivatives are traded;

- (d) the suspension of or failure or the non-publication of the calculation of the Underlying as a result of a decision by the Index Sponsor or the Index Calculation Agent;

to the extent that such Market Disruption Event is material; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB). Any restriction of the trading hours or the number of days on which trading takes place on the Relevant Exchange or, as the case may be, the Determining Futures Exchange, shall not constitute a Market Disruption Event provided that the restriction occurs due to a previously announced change in the rules of the Relevant Exchange or, as the case may be, the Determining Futures Exchange.

**"Minimum Amount"** means the Minimum Amount as specified in § 1 of the Product and Underlying Data.

**"Minimum Exercise Amount"** means the Minimum Exercise Amount as specified in § 1 of the Product and Underlying Data.

**"Reference Price"** means the Reference Price of the Underlying expressed in the Underlying Currency and as specified in § 1 of the Product and Underlying Data.

The "**Reference Rate**" will be newly specified by the Calculation Agent on each Adjustment Date and is for each period starting with the respective Adjustment Date (excluding) up to the immediately following Adjustment Date (including) the offer rate (expressed as per cent. per annum) for deposits in the Underlying Currency for the maturity of one month, which appears on the Reference Rate Screen Page as of the Reference Rate Time, on the last Trade Day of the immediately preceding calendar month (each such date an "**Interest Determination Date**").

If the Reference Rate Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Reference Rate Screen Page, the Calculation Agent will request each of the Reference Banks to provide its rates, offered to prime banks in the interbank market at the Reference Rate Financial Centre at approximately the Reference Rate Time, on the respective Interest Determination Date for deposits in the Underlying Currency for the maturity of one month in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded if

necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the Calculation Agent will determine the Reference Rate in its reasonable discretion (§ 315 et seq. BGB).

BGB) by way of notice pursuant to § 6 of the General Conditions in accordance with such components' liquidity.

In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the Underlying or, respectively its components at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted number or liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Underlying (the "**Substitute Exchange**"); such exchange shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB). In this case, any reference to the Relevant Exchange in the Terms and Conditions of these Securities shall be deemed to refer to the Substitute Exchange.

**"Relevant Reference Price"** means the Reference Price on the respective Valuation Date.

**"Risk Management Fee"** means a value expressed in percentage per year, which forms the risk premium for the Issuer. The Initial Risk Management Fee for the First Trade Date is specified in § 1 of the Product and Underlying Data. The Calculation Agent adjusts the Risk Management Fee on each Adjustment Date within its reasonable discretion (§ 315 et seq. BGB) to the current market circumstances so that the ratio of the Risk Management Fee to the relevant market parameters (especially volatility of the Underlying, liquidity of the Underlying, hedging costs and lending costs (if any)) remains substantially unchanged. The adjusted Risk Management Fee is valid during the period of the respective Adjustment Date (excluding) to the immediately following Adjustment Date (including). - (c) on each Dividend Adjustment Date the difference of:
  - (i) the Strike, specified in accordance with the aforementioned method for this Dividend Adjustment Date, and
  - (ii) the Dividend Deduction for this Dividend Adjustment Date (the **"Dividend Adjustment"**).

The Strike shall be rounded up or down to six decimals, with 0.0000005 being rounded upwards and shall never be less than zero.

The Calculation Agent will publish the Strike after its specification on the Website of the Issuer under the respective product details.

**"Terms and Conditions"** means the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C).

## § 3

### Exercise Right, Exercise, Knock-out, Exercise Notice, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 5:00 p.m. (Munich local

time), the Exercise Right is deemed to be effectively exercised on that Banking Day, on which the Securities will be credited to the account of the Issuer prior to 5:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 5:00 p.m. (Munich local time) of the fifth Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (5) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

## § 4

### Differential Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

*In the case of Securities, for which "Call" is specified in § 1 of the Product and Underlying Data:*

$$\text{Differential Amount} = (\text{Relevant Reference Price} - \text{Strike}) \times \text{Ratio} / \text{FX (final)}$$

However, the Differential Amount is not lower than the Minimum Amount.

*In the case of Securities, for which "Put" is specified in § 1 of the Product and Underlying Data:*

Differential Amount = (Strike - Relevant Reference Price) x Ratio / FX (final)

However, the Differential Amount is not lower than the Minimum Amount.

- (2) When calculating or, respectively, determining the Differential Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

## § 5

### **Issuer's Regular Call Right, Issuer's Extraordinary Call Right**

- (1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice. The application of §§ 313, 314 BGB remains reserved.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB). The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date

specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

## § 6

### Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depositary banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

## § 7

### Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date , the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

If a FX Market Disruption Event occurs on a FX Valuation Date, the respective FX Valuation Date will be postponed to the next following FX Calculation Date on which the FX Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date or FX Valuation Date, as the case may be, shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine in its reasonable

discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 8<sup>th</sup> Banking Day, taking into account the economic position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the Underlying or, respectively, its components expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the relevant Valuation Date.

Should the FX Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective FX. The FX-fixing required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9<sup>th</sup> Banking Day, taking into account the economic position of the Security Holders.

## § 8

### **Index Concept, Adjustments, Replacement Underlying, New Index Sponsor and New Index Calculation Agent, Replacement Specification**

- (1) *Index Concept:* The basis for the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities shall be the Underlying with its provisions currently applicable, as developed and maintained by the Index Sponsor, as well as the respective method of calculation, determination, and publication of the price of the Underlying (the "**Index Concept**") applied by the Index Sponsor. This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.
- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to

the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.

- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a Index Use Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Underlying and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any references to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Calculation Agent.
- (5) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, which is required pursuant to the Terms and Conditions of these Securities will subsequently be corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will

notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (6) The application of §§ 313, 314 BGB remains reserved.

## § 9

### New Fixing Sponsor, Replacement Exchange Rate

- (1) *New Fixing Sponsor:* In the event that the FX Exchange Rate is no longer determined and published by the Fixing Sponsor or, in case of a not only immaterial modification in the method of determination and/or publication the FX Exchange Rate by the Fixing Sponsor (including the time of the determination and/or publication), the Calculation Agent has the right to determine the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities on the basis of the determinations and publications by another person, company or institution (the "**New Fixing Sponsor**"). The Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) whether such event occurs and which other person, company or institution shall act as the New Fixing Sponsor (the "**New Fixing Sponsor**"). The New Fixing Sponsor and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case, any references to the replaced Fixing Sponsor in the Terms and Conditions of these Securities shall be deemed to refer to the New Fixing Sponsor.
- (2) *Replacement Exchange Rate:* In the event that the FX Exchange Rate is no longer determined and published, the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of a FX Exchange Rate determined and published on the basis of another method, which will be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) (the "**Replacement Exchange Rate**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the determination or to the method of the calculation of the Differential Amount, to the Ratio and/or all prices of the Underlying or its components determined by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions on the basis of the Terms and Conditions in such way that the financial position of the Security Holders remains unchanged to the greatest extent possible. The Replacement Exchange Rate and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case any reference to the replaced FX Exchange Rate in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Exchange Rate.
- (3) The application of §§ 313, 314 BGB remains reserved.

Call Turbo Open End Securities are Securities for which "Call" is specified in the Annex to this Summary and where Security Holders participate in the price development of the Underlying. Subject to the influence of other price influencing factors (such as expected volatility, interest rate, dividend yield), if the price of the Underlying rises, the price of the Security regularly rises. Put Turbo Open End Securities are Securities for which "Put" is specified in the Annex to this Summary and where Security Holders participate in the reverse price development of the Underlying. <b>D.6</b>	Key information on the key risks that are specific to the securities	<p>In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption.</p> <ul style="list-style-type: none"> <li>• <b>Potential conflicts of interest</b></li> </ul> <p>The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders.</p> <ul style="list-style-type: none"> <li>• <b>Key risks related to the Securities</b></li> </ul> <p><b><i>Key risks related to the market</i></b></p> <p>Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their</p>

redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities.

The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time.

***Key risks related to the Securities in general***

The Issuer may possibly fail to perform its obligations under the Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders.

An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation.

The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects).

The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made.

The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital.

### ***Risks related to Underlying-linked Securities***

*Risks arising from the influence of the Underlying or its components on the market value of the Securities*

The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the Underlying or its components in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors.

*Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods*

Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested.

### ***Risks due to open-end structure***

Securities may be issued without a fixed term. Security Holders have no claim for repayment until a Call Right of the Issuer or the Exercise Right of the Security Holder has been exercised.

### ***Risks related to a Strike***

A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components.

### ***Risks related to a Ratio***

A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment.

### ***Special risks related to reference rates***

During the term of the Securities it cannot be ruled out that underlying reference rates will no longer be available, in the relevant form at the time of the issuance of the Securities or, that in connection with the determination or publication of these reference rates it may come to inaccuracies or even manipulations by the persons responsible for the determination and/or publication, or by any other market participants.

	<p><i>Currency and Currency Exchange Rate risk with respect to the Underlying or its components</i></p> <p>Since the Underlying or its components are denominated in a currency other than the Specified Currency, there is a Currency Exchange Rate risk.</p> <p><i>Risks related to Adjustment Events</i></p> <p>Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities.</p> <p><i>Risks related to structure specifics</i></p> <p>Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date.</p> <p><i>Risks related to Call Turbo Open End Securities</i></p> <p>If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to Put Turbo Open End Securities</i></p> <p>If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital.</p> <p><i>Risks related to the Knock-out Barrier</i></p> <p>If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities. Furthermore, the Security Holder bears the reinvestment risk.</p> <p><i>Risks related to the Minimum Exercise Amount</i></p> <p>Since a certain number of Securities is required in order to exercise the Securities, a Security Holder may be unable to exercise some of his Securities.</p> <p><i>Risks related to Securities which provide for a constant adjustment of the Strike and Knock-out Barrier</i></p> <p>Since the Strike and Knock-out Barrier are subject to a constant adjustment, the risk of the occurrence of a Knock-out Event may increase and the amounts payable under Securities as well as the value of the Securities may significantly reduce.</p>
--	---

	<p><i>Risks arising from an Issuer's Regular Call Right</i></p> <p>In case of Securities with an Issuer's Call Right, Securities may be called within the Issuer's sole discretion at certain dates. If the price of the Underlying is low at the time of the Issuer's regular call, the Security Holder may suffer a partial or total loss of its invested capital.</p> <p><i>Risks arising from the Exercise Right of Security Holders</i></p> <p>In case of Securities with an Exercise Right of the Security Holders, Securities may be called at certain dates. If the price of the Underlying is low at the time of the exercise, the Security Holder may suffer a partial or total loss of its invested capital.</p> <p><i>Risks related to Call Events</i></p> <p>Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital even if the Securities provide for a conditional minimum payment.</p> <p><i>Risks related to Market Disruption Events</i></p> <p>The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion. Security Holders are not entitled to demand interest due to such delayed payment.</p> <p><i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i></p> <p>The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components.</p> <ul style="list-style-type: none"> <li>• <b>Key risks related to the Underlying or its components</b></li> </ul> <p><b>General risks</b></p> <p><i>No rights of ownership of the Underlying or its components</i></p> <p>The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends, payments or other distributions or other rights) with respect to the Underlying or its components.</p> <p><b>Key risks related to shares</b></p>
--	--

	<p>The performance of share-linked Securities (i.e. Securities related to indices as Underlying and shares as index components) depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder.</p> <p><b><i>Key risks related to indices</i></b></p> <p>The performance of index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer neither has influence on the respective index nor the index concept. In general, an index sponsor does not assume liability. Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders do not or only partly participate in dividends or other distributions in relation to the index components. Indices may be affected disproportionately negative in the case of an unfavourable development in a country, region or industrial sector. Indices may include fees which negatively affect their performance. Due to regulatory measures in the future the index, <i>inter alia</i>, may not be used as Underlying of the Securities or only subject to changed conditions.</p> <p><b>The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.</b></p>

D.6	Informations clés sur les principaux risques propres aux titres	<p>De l'avis de l'Emetteur, les risques principaux présentés ci-dessous pourraient, pour le Porteur de Titre, affecter de manière négative la valeur des Titres et/ou les montants devant être distribués en vertu des Titres et/ou la possibilité pour le Porteur de Titres de vendre les Titres moyennant un prix raisonnable avant leur remboursement.</p> <ul style="list-style-type: none"> <li>• <b>Conflits d'intérêts potentiels</b></li> </ul> <p>Le risque de conflits d'intérêt (tels que décrits à la section E.4) est lié au fait que l'Emetteur, les distributeurs ou une quelconque société apparentée à l'un d'eux, dans le cadre de certains rôles ou certaines opérations, pourraient protéger des intérêts potentiellement contraires ou ne tenant pas compte des intérêts des Porteurs de Titres.</p> <ul style="list-style-type: none"> <li>• <b>Principaux risques relatifs aux Titres</b></li> </ul> <p><b><i>Principaux risques relatifs au marché</i></b></p> <p>Dans certaines circonstances un Porteur de Titres pourrait ne pas pouvoir vendre ses Titres ou ne pas pouvoir les vendre à un prix adéquat avant leur remboursement. Même dans le cas où un marché secondaire existe, il ne peut pas être exclu que le Porteur de Titre ne pourrait pas être en mesure de disposer des Titres dans le cas d'une évolution défavorable du Sous-Jacent ou de ses composants ou d'un taux de change, e.g. si un tel développement se produit en dehors des heures de négociation des Titres.</p> <p>La valeur marchande des Titres sera affectée par la solvabilité de l'Emetteur et par un certain nombre d'autres facteurs (par exemple les taux de change, les taux d'intérêts et de rendement en vigueur, le marché des titres similaires, les circonstances générales économiques, politiques et cycliques, la négociabilité des Titres et des facteurs liés aux Sous-Jacents) et pourrait être inférieure de</p>

manière significative au prix d'achat. Les Porteurs de Titres ne peuvent pas compter sur la possibilité de couvrir de manière suffisante les risques de prix liés aux Titres à tout moment.

#### ***Risques principaux relatifs aux Titres en général***

L'Emetteur pourrait manquer à toutes ou partie de ses obligations liées aux Titres, par exemple en cas de faillite de l'Emetteur ou en raison d'interventions gouvernementales ou réglementaires. Il n'existe pas de régime de protection des dépôts, ni aucun autre régime de compensation, pour protéger contre ce risque. L'autorité compétente en matière de résolution peut appliquer des outils de résolution qui comprennent, entre autres, un instrument de "bail-in" (par exemple, la conversion de titres en instruments de capitaux ou la dépréciation). L'application d'un outil de résolution peut affecter de façon significative les droits des Porteurs de Titres.

Un investissement dans les Titres pourrait être illégal ou défavorable pour un investisseur potentiel ou être inapproprié, étant donné sa connaissance ou son expérience, ses besoins financiers, ses objectifs et sa situation.

Le taux réel de rendement d'un investissement dans les Titres pourrait être réduit, nul ou même négatif (par exemple en raison de coûts accessoires liés à l'achat, la détention ou la vente des Titres, d'une future dépréciation monétaire (inflation) ou d'impacts fiscaux).

Le montant différentiel pourrait être inférieur au Prix d'Emission ou au prix d'achat correspondant et, dans certains cas, aucun intérêt ou paiement régulier ne sera versé.

Le produit issu des Titres pourrait ne pas couvrir le remboursement des intérêts ou du capital dus au titre d'un crédit pour financer l'achat des Titres, et ainsi requérir des capitaux *additionnels*.

#### ***Risques relatifs aux Titres liés à un Sous-Jacent***

##### *Risques liés à l'influence du Sous-Jacent ou de ses composants sur la valeur marchande des Titres*

La valeur marchande des Titres et les montants dus en vertu des Titres dépendent de manière significative du prix du Sous-Jacent ou de ses composants. Il est impossible de prédire l'évolution à venir du prix du Sous-Jacent ou de ses composants. De plus, la valeur marchande des Titres sera affectée par certains facteurs liés au Sous-Jacent.

##### *Risques liés au fait que l'observation du Sous-Jacent ou de ses composants n'a lieu qu'à certaines dates, horaires ou périodes*

	<p><i>déterminées</i></p> <p>Etant donné le fait que l'observation du Sous-Jacent ou de ses composants ne peut intervenir qu'à des dates, horaires ou périodes déterminées, les montants dus en vertu des Titres pourraient être largement inférieurs au prix suggéré par le Sous-Jacent ou ses composants.</p> <p><i>Risques liés aux structures open-end</i></p> <p>Les Titres peuvent être émis sans échéance fixe. Les Porteurs de Titres ne peuvent prétendre au remboursement que si un Droit d'Achat de l'Emetteur ou un Droit d'Exercice des Porteurs de Titre a été exercé.</p> <p><i>Risques liés à un Strike</i></p> <p>Un Strike peut conduire les Porteurs de Titres à participer soit, dans une moindre mesure, à une performance favorable du Sous-Jacent ou de ses composants ou, dans une plus grande mesure, dans une évolution défavorable du Sous-Jacent ou de ses composants.</p> <p><i>Risques liés à un Ratio</i></p> <p>L'effet d'un ratio pourrait être que le Titre devienne en termes économiques semblable à un investissement direct dans le Sous-Jacent en question, ou ses composants, mais sans être toutefois totalement comparable à un tel investissement direct.</p> <p><i>Risques particuliers liés aux taux de référence</i></p> <p>Pendant la durée de vie des Titres, il ne peut pas être exclu que les taux de référence sous-jacents ne seront plus disponibles, sous la même forme que celle disponible au moment de l'émission des Titres ou, que dans le cadre de la détermination ou la publication de ces taux de référence, des inexactitudes ou même des manipulations par les personnes chargées de la détermination et/ou la publication desdits taux, ou par tous autres acteurs du marché, influent sur ces taux.</p> <p><i>Risque lié aux Devises et aux Taux de Change à l'égard du Sous-Jacent ou de ses composants</i></p> <p>Dès lors que le Sous-Jacent ou ses composants sont libellés dans une devise autre que la Devise Prévue, il existe un risque de Taux de Change.</p> <p><i>Risques liés aux Cas d'Ajustement</i></p> <p>Les ajustements peuvent avoir un effet négatif significatif sur la valeur et la performance future des Titres ainsi que sur les montants distribués en vertu des Titres. Les cas d'ajustements peuvent</p>
--	---

	<p>éventuellement donner lieu à une résiliation anticipée exceptionnelle des Titres.</p> <p><i>Risques liés aux particularités de structure</i></p> <p>En raison de l'effet de levier caractéristique des Titres, la performance du Sous-Jacent pourrait avoir un impact négatif démesurément important sur la valeur des Titres. La valeur temporelle diminue en fonction du temps restant pour atteindre la maturité. Dans ce cas la valeur marchande des Titres deviendra nulle à la dernière Date d'Exercice possible.</p> <p><i>Risques liés aux Titres Call Turbo Open End</i></p> <p>Si le prix du Sous-Jacent diminue, les Porteurs de Titres pourraient perdre la totalité de leur capital investi.</p> <p><i>Risques liés aux Titres Put Turbo Open End</i></p> <p>Si le prix du Sous-Jacent augmente, les Porteurs de Titres pourraient perdre la totalité de leur capital investi.</p> <p><i>Risques liés à la Barrière de Knock-Out</i></p> <p>Si un Cas de Knock-out survient, le Porteur de Titre pourrait subir une perte immédiate partielle ou totale de son investissement, ou perdre le droit de demander le versement de certains montants liés aux Titres. En outre, le Porteur de Titre supporte le risque de réinvestissement.</p> <p><i>Risques liés au Montant Minimum d'Exercice</i></p> <p>Dès lors que les Conditions Définitives exigent une certaine quantité de Titres afin d'exercer les Titres, un Porteur de Titre pourrait ne pas pouvoir exercer certains de ses Titres.</p> <p><i>Risques liés aux Titres prévoyant un ajustement constant du Strike et de la Barrière de Knock-Out</i></p> <p>Dès lors que les Conditions Définitives prévoient un ajustement constant du Strike et de la Barrière de Knock-Out, le risque qu'un Cas de Knock-Out se produise pourrait augmenter et les montants dus en vertu des Titres ainsi que la valeur des Titres pourraient être largement réduits.</p> <p><i>Risques liés au Droit d'Achat Ordinaire de l'Emetteur</i></p> <p>Dans le cas de Titres comprenant un Droit d'Achat au profit de l'Emetteur, les Titres pourraient être rachetés à certaines dates à la seule discrétion de l'Emetteur. Si le prix du Sous-Jacent est bas au moment du rappel ordinaire par l'Emetteur, le Porteur de Titres pourrait perdre une partie ou la totalité de son capital investi.</p> <p><i>Risques liés au Droit d'Exercice des Porteurs de Titres</i></p>
--	---

	<p>Dans le cas de Titres comprenant un Droit d'Exercice au profit des Porteurs de Titres, les Titres pourraient être rachetés à certaines dates. Si le prix du Sous-Jacent est bas au moment de cet exercice, le Porteur de Titre pourrait perdre une partie ou la totalité de son capital investi.</p> <p><i>Risques liés aux Cas de Rappel</i></p> <p>Si au moins un Cas de Rappel se produit l'Emetteur est en droit de racheter de manière exceptionnelle les Titres à leur valeur marchande. Si la valeur marchande des Titres au moment opportun est inférieure au Prix d'Emission ou au prix d'achat, le Porteur de Titres concerné subira une perte totale ou partielle de son capital investi même si les Titres prévoient un versement minimum conditionnel.</p> <p><i>Risques liés aux Cas de Perturbation du Marché</i></p> <p>L'Agent de Calcul peut différer les valorisations et les versements et effectuer des déterminations selon son appréciation raisonnable. Les Porteurs de Titres ne sont pas en droit d'exiger des intérêts en raison de tels délais de paiement.</p> <p><i>Risques liés aux effets négatifs des accords de couverture par l'Emetteur sur les Titres</i></p> <p>La conclusion ou la liquidation des opérations de couverture par l'Emetteur pourraient, dans certains cas, nuire au prix du Sous-Jacent ou de ses composants.</p> <ul style="list-style-type: none"> <li>• <b>Principaux risques relatifs au Sous-Jacent ou ses composants</b></li> </ul> <p><i>Risques généraux</i></p> <p><i>Absence de droit de propriété concernant le Sous-Jacent ou ses composants</i></p> <p>Le Sous-Jacent ou ses composants ne seront pas détenus par l'Emetteur pour le bénéfice des Porteurs de Titres, et par conséquent, les Porteurs de Titres n'obtiendront aucun droit de propriété (par exemple, droits de vote, droits de percevoir des dividendes, paiements ou d'autres distributions, ou autres droits) concernant le Sous-Jacent ou ses composants.</p> <p><i>Risques principaux relatifs à des actions</i></p> <p>La performance de Titres liés à des Actions (c-à-d. Titres dont les Sous-Jacents sont des indices et dont les composants de l'indice sont des actions) dépend de la performance des actions en question, qui peut dépendre de certains facteurs. Les versements de</p>

		<p>dividendes peuvent avoir un effet négatif pour le Porteur de Titre.</p> <p><b>Risques principaux relatifs aux indices</b></p> <p>La performance des Titres liés à des indices dépend de la performance des indices en question, qui dépend en grande partie de la composition et de la performance des composants de ces indices. L'Emetteur n'a d'influence ni sur l'indice en question ni le concept de l'indice. De manière générale, la responsabilité du sponsor d'un indice n'est pas engagée. En général, un indice peut être modifié, résilié ou remplacé à tout moment par un autre indice lui succédant. Les Porteurs de Titres ne bénéficient pas, ou alors seulement en partie, des dividendes ou autres distributions liés à des composants de l'indice. Les Indices peuvent être affectés de manière disproportionnée négative en cas de développement défavorable dans un pays, une région ou un secteur industriel. Les indices peuvent prévoir des frais qui impactent leur performance de manière négative. En raison des mesures réglementaires dans l'avenir l'indice ne peut pas ou seulement aux conditions modifiées, entre autres, être utilisé comme Sous-Jacent des Titres.</p> <p><b>Les Titres ne sont pas à capital garanti. Les investisseurs doivent être conscients qu'ils sont susceptibles de perdre tout ou partie de la valeur de leur investissement.</b></p>
