If a market disruption pursuant to § 7 of the Special Conditions exists on the Banking Day preceding the declaration of rescission pursuant to paragraph (2) above, the last Banking Day preceding the rescission pursuant to paragraph (2) above on which no market disruption existed shall be decisive for the determination of the Acquisition Price in accordance with the preceding sentence.

Only corrections and amendments that are reasonable for the Security Holders taking into account the interests of the Issuer and that in particular do not materially impair the legal and financial situation of the Security Holders will be permitted. The Security Holders will be informed of such corrections and supplementations pursuant to § 6 of the General Conditions.
- (6) *Adherence to corrected Terms and Conditions:* If the Security Holder was aware of typing or calculation errors or similar errors in these Terms and Conditions when purchasing the Securities, the Issuer is entitled to adhere to the Terms and Conditions amended accordingly irrespective of paragraphs (2) to (5) above.

- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. The Knock-out Period will be extended respectively.

This shall also apply if during the term of the Securities changes are made or occur in respect of the Index Concept, or if other measures are taken, which have an impact on the Index Concept, unless otherwise provided in the below provisions.

- (2) *Adjustments:* Upon the occurrence of an Adjustment Event the Terms and Conditions of these Securities (in particular the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Calculation Agent) and/or all prices of the Underlying determined by the Calculation Agent on the basis of the Terms and Conditions of these Securities shall be adjusted in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. Any such adjustment will be performed taking into consideration any adjustments made by the Determining Futures Exchange to the there traded Derivatives linked to the Underlying, and the remaining term of the Securities as well as the latest available price of the Underlying. If the Calculation Agent determines that, pursuant to the rules of the Determining Futures Exchange, no adjustments were made to the Derivatives linked to the Underlying, the Terms and Conditions of these Securities regularly remain unchanged. The exercised adjustments and the date of the first application shall be notified according to § 6 of the General Conditions.
- (3) *Replacement Underlying:* In cases of an Index Replacement Event or a Index Use Event, the adjustment pursuant to paragraph (2) is usually made by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) determining, which index should be used in the future as Underlying (the "**Replacement Underlying**"). If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of these Securities (in particular to the Underlying, the Ratio and/or all prices of the Underlying, which have been specified by the Issuer) and/or all prices of the Underlying determined by the Calculation Agent pursuant to the Terms and Conditions of these Securities in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible. From the first application of the Replacement Underlying on, any reference to the replaced Underlying in the Terms and Conditions of these Securities shall be deemed to refer to the Replacement Underlying.
- (4) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any references to the replaced Index Sponsor in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Sponsor. If the Underlying is no longer

calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any references to the replaced Index Calculation Agent in the Terms and Conditions of these Securities shall be deemed as referring to the New Index Calculation Agent.

D.6	Key information on the key risks that are specific to the securities	In the opinion of the Issuer, the key risks described below may, with regard to the Security Holder, adversely affect the value of the Securities and/or the amounts to be distributed under the Securities and/or the ability of Security Holders to sell the Securities at a reasonable price prior to their redemption. • Potential conflicts of interest The risk of conflicts of interest (as described in E.4) is related to the possibility that the Issuer, distributors or any of their affiliates, in relation to certain functions or transactions, may pursue interests which may be adverse to or do not regard the interests of the Security Holders. • Key risks related to the Securities <i>Key risks related to the market</i> Under certain circumstances a Security Holder may not be able to sell his Securities at all or at an adequate price prior to their redemption. Even in the case of an existing secondary market it cannot be ruled out that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying or its components or of a currency exchange rate, e.g. if such development occurs outside of the trading hours of the Securities. The market value of the Securities will be affected by the creditworthiness of the Issuer and a number of other factors (e.g. exchange rates, prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability of the Securities and Underlying-related factors) and may be substantially lower than the purchase price. Security Holders may not rely on being able to sufficiently hedge against price risks arising from the Securities at any time. <i>Key risks related to the Securities in general</i> The Issuer may possibly fail to perform its obligations under the

		Securities in whole or in part, e.g., in case of an insolvency of the Issuer or due to governmental or regulatory interventions. Such risk is not protected by a deposit protection scheme or any similar compensation scheme. The competent resolution authority may apply resolution tools which include, among others, a "bail-in" instrument (e.g., conversion of Securities into equity instruments or write down). Application of a resolution tool may materially affect the rights of the Security Holders. An investment into the Securities may be illegal or unfavourable for a potential investor or not suitable, with regard to his knowledge or experience and his financial needs, goals and situation. The real rate of return of an investment into the Securities may be reduced or may be zero or even negative (e.g., due to incidental costs in connection with the purchase, holding and disposal of the Securities, future money depreciation (inflation) or tax effects). The differential amount may be less than the Issue Price or the respective purchase price and, under certain circumstances, no interest or ongoing payments will be made. The proceeds from the Securities may possibly not be sufficient to make interest or principal payments arising from a financing purchase of the Securities and require additional capital. <i>Risks related to Underlying-linked Securities</i> <i>Risks arising from the influence of the Underlying or its components on the market value of the Securities</i> The market value of the Securities and the amounts payable under the Securities significantly depend on the price of the Underlying or its components. It is not possible to predict the price development of the Underlying or its components in the future. Additionally, the market value of the Securities will be affected by a number of Underlying-related factors. <i>Risks arising from the fact that the observation of the Underlying or its components occurs only at specified dates or times or periods</i> Due to the fact that the observation of the Underlying or its components may occur only at specified dates, times or periods, amounts payable under the Securities may be considerably lower than the price of the Underlying or its components may have suggested.
--	--	---

		<i>Risks related to a Strike</i> A strike can lead to the Security Holders participate either to a lesser extent in a favourable performance of the Underlying or its components or to a greater extent in an unfavourable performance of the Underlying or its components. <i>Risks related to a Ratio</i> A ratio may result in the Security being in economic terms similar to a direct investment in the relevant Underlying or its components, but being nonetheless not fully comparable with such a direct investment. <i>Risks related to Adjustment Events</i> Adjustments may have a substantial negative impact on the value and the future performance of the Securities as well as on the amounts to be distributed under the Securities. Adjustment events may also lead to an extraordinary early termination of the Securities. <i>Risks related to structure specifics</i> Because of the leverage typical for the Securities, the performance of the Underlying may have a disproportionately strong adverse effect on the value of the Securities. The time value declines in relation to the time remaining to maturity. In this case the market value of the Securities will fall to zero by the last possible Exercise Date. <i>Risks related to Call Turbo Securities</i> If the price of the Underlying falls, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to Put Turbo Securities</i> If the price of the Underlying rises, the Security Holders may suffer a total loss of their invested capital. <i>Risks related to the Knock-out Barrier</i> If a Knock-out Event occurs, the Security Holder may suffer an immediate partial or total loss of his investment or lose the right to demand payment of certain amounts under the Securities. <i>Risks related to Call Events</i> Upon the occurrence of a Call Event the Issuer has the right to extraordinarily call the Securities at their market value. If the market value of the Securities at the relevant time is lower than the Issue Price or the purchase price, the respective Security Holder will suffer a partial or total loss of its invested capital
--	--	---

		even if the Securities provide for a conditional minimum payment. <i>Risks related to Market Disruption Events</i> The Calculation Agent may defer valuations and payments and make determination in its reasonable discretion. Security Holders are not entitled to demand interest due to such delayed payment. <i>Risks arising from negative effects of hedging arrangements by the Issuer on the Securities</i> The entering or the liquidation of hedging transactions by the Issuer may, in individual cases, adversely affect the price of the Underlying or its components. • Key risks related to the Underlying or its components <i>General risks</i> <i>No rights of ownership of the Underlying or its components</i> The Underlying or its components will not be held by the Issuer for the benefit of the Security Holders, and as such, Security Holders will not obtain any rights of ownership (e.g., voting rights, rights to receive dividends, payments or other distributions or other rights) with respect to the Underlying or its components. <i>Key risks related to shares</i> The performance of share-linked Securities (i.e. Securities related to indices as Underlying and shares as index components) depends on the performance of the respective shares, which may be subject to certain factors. Dividend payments may have an adverse effect on the Security Holder. <i>Key risks related to indices</i> The performance of index-linked Securities depends on the performance of the respective indices, which largely depend on the composition and the performance of their index components. The Issuer neither has influence on the respective index nor the index concept. In general, an index sponsor does not assume liability. Generally, an index may at any time be altered, terminated or replaced by any successor index. Security Holders do not or only partly participate in dividends or other distributions in relation to the index components. Indices may be affected disproportionately negative in the case of an unfavourable development in a country, region or industrial
--	--	--

		sector. Indices may include fees which negatively affect their performance. Due to regulatory measures in the future the index, <i>inter alia</i>, may not be used as Underlying of the Securities or only subject to changed conditions. The Securities are not capital protected. Investors may lose the value of their entire investment or part of it.

Les Titres sont représentés par un certificat global permanent sans coupons. Les porteurs de Titres (les "Porteurs de Titres") ne peuvent pas prétendre recevoir de Titres définitifs. Les ISIN sont précisés dans le tableau de l'Annexe de ce résumé.

		d'un Sous-Jacent (tel que défini à la section C.20). Si aucun Cas de Knock-out (tel que défini à la section C.15) ne se produit, les Porteurs de Titres seront en droit d'exiger le versement du Montant Différentiel (tel que défini à la section C.15) à la Date de Versement Finale (telle que définie à la section C.16) (le "Droit d'Exercice"). Si au moins un Cas de Knock-out s'est produit, les Porteurs de Titres seront en droit d'exiger le versement du Montant de Knock-out. Le "Montant de Knock-out" est précisé dans l'Annexe de ce résumé. Les Titres ne donnent droit à aucun intérêt. Si un ou plusieurs cas de rappel (p. ex. si, dans l'éventualité d'un Cas d'Ajustement, un ajustement n'est pas possible ou pas raisonnable à l'égard de l'émetteur et/ou des porteurs de titres) se produisent l'Emetteur peut exceptionnellement acheter les Titres et rembourser les Titres à hauteur de leur juste valeur marchande. Les Titres Call Turbo sont des Titres pour lesquels le terme "Call" est précisé dans l'Annexe à ce Résumé grâce auxquels les Porteurs de Titres peuvent participer à l'évolution du prix du Sous-Jacent. 		supérieur au Strike, multiplié par le Ratio; - dans le cas de Titres Put Turbo, un montant représentant la différence entre le Prix de Référence Pertinent et le Strike lorsque le Prix de Référence Pertinent est inférieur au Strike, multiplié par le Ratio. Toutefois, le Montant Différentiel n'est jamais inférieur au Montant Minimum. D.6	Informations clés sur les	De l'avis de l'Emetteur, les risques principaux présentés ci-dessous pourraient, pour le Porteur de Titre, affecter de manière négative la

	principaux risques propres aux titres	valeur des Titres et/ou les montants devant être distribués en vertu des Titres et/ou la possibilité pour le Porteur de Titres de vendre les Titres moyennant un prix raisonnable avant leur remboursement. • Conflits d'intérêts potentiels Le risque de conflits d'intérêt (tels que décrits à la section E.4) est lié au fait que l'Emetteur, les distributeurs ou une quelconque société apparentée à l'un d'eux, dans le cadre de certains rôles ou certaines opérations, pourraient protéger des intérêts potentiellement contraires ou ne tenant pas compte des intérêts des Porteurs de Titres. • Principaux risques relatifs aux Titres <i>Principaux risques relatifs au marché</i> Dans certaines circonstances un Porteur de Titres pourrait ne pas pouvoir vendre ses Titres ou ne pas pouvoir les vendre à un prix adéquat avant leur remboursement. Même dans le cas où un marché secondaire existe, il ne peut pas être exclu que le Porteur de Titre ne pourrait pas être en mesure de disposer des Titres dans le cas d'une évolution défavorable du Sous-Jacent ou de ses composants ou d'un taux de change, e.g. si un tel développement se produit en dehors des heures de négociation des Titres. La valeur marchande des Titres sera affectée par la solvabilité de l'Emetteur et par un certain nombre d'autres facteurs (par exemple les taux de change, les taux d'intérêts et de rendement en vigueur, le marché des titres similaires, les circonstances générales économiques, politiques et cycliques, la négociabilité des Titres et des facteurs liés aux Sous-Jacents) et pourrait être inférieure de manière significative au prix d'achat. Les Porteurs de Titres ne peuvent pas compter sur la possibilité de couvrir de manière suffisante les risques de prix liés aux Titres à tout moment. <i>Risques principaux relatifs aux Titres en général</i> L'Emetteur pourrait manquer à toutes ou partie de ses obligations liées aux Titres, par exemple en cas de faillite de l'Emetteur ou en raison d'interventions gouvernementales ou réglementaires. Il n'existe pas de régime de protection des dépôts, ni aucun autre régime de compensation, pour protéger contre ce risque. L'autorité compétente en matière de résolution peut appliquer des outils de résolution qui comprennent, entre autres, un instrument de "bail-in" (par exemple, la conversion de titres en instruments de capitaux ou la dépréciation). L'application d'un outil de résolution peut affecter de façon significative les droits des Porteurs de Titres.
--	---------------------------------------	---

		Un investissement dans les Titres pourrait être illégal ou défavorable pour un investisseur potentiel ou être inapproprié, étant donné sa connaissance ou son expérience, ses besoins financiers, ses objectifs et sa situation. Le taux réel de rendement d'un investissement dans les Titres pourrait être réduit, nul ou même négatif (par exemple en raison de coûts accessoires liés à l'achat, la détention ou la vente des Titres, d'une future dépréciation monétaire (inflation) ou d'impacts fiscaux). Le montant différentiel pourrait être inférieur au Prix d'Emission ou au prix d'achat correspondant et, dans certains cas, aucun intérêt ou paiement régulier ne sera versé. Le produit issu des Titres pourrait ne pas couvrir le remboursement des intérêts ou du capital dus au titre d'un crédit pour financer l'achat des Titres, et ainsi requérir des capitaux <i>additionnels</i>. <i>Risques relatifs aux Titres liés à un Sous-Jacent</i> <i>Risques liés à l'influence du Sous-Jacent ou de ses composants sur la valeur marchande des Titres</i> La valeur marchande des Titres et les montants dus en vertu des Titres dépendent de manière significative du prix du Sous-Jacent ou de ses composants. Il est impossible de prédire l'évolution à venir du prix du Sous-Jacent ou de ses composants. De plus, la valeur marchande des Titres sera affectée par certains facteurs liés au Sous-Jacent. <i>Risques liés au fait que l'observation du Sous-Jacent ou de ses composants n'a lieu qu'à certaines dates, horaires ou périodes déterminées</i> Etant donné le fait que l'observation du Sous-Jacent ou de ses composants ne peut intervenir qu'à des dates, horaires ou périodes déterminées, les montants dus en vertu des Titres pourraient être largement inférieurs au prix suggéré par le Sous-Jacent ou ses composants. <i>Risques liés à un Strike</i> Un Strike peut conduire les Porteurs de Titres à participer soit, dans une moindre mesure, à une performance favorable du Sous-Jacent ou de ses composants ou, dans une plus grande mesure, dans une évolution défavorable du Sous-Jacent ou de ses composants. <i>Risques liés à un Ratio</i> L'effet d'un ratio pourrait être que le Titre devienne en termes
--	--	--

		économiques semblable à un investissement direct dans le Sous-Jacent en question, ou ses composants, mais sans être toutefois totalement comparable à un tel investissement direct. <i>Risques liés aux Cas d'Ajustement</i> Les ajustements peuvent avoir un effet négatif significatif sur la valeur et la performance future des Titres ainsi que sur les montants distribués en vertu des Titres. Les cas d'ajustements peuvent éventuellement donner lieu à une résiliation anticipée exceptionnelle des Titres. <i>Risques liés aux particularités de structure</i> En raison de l'effet de levier caractéristique des Titres, la performance du Sous-Jacent pourrait avoir un impact négatif démesurément important sur la valeur des Titres. La valeur temporelle diminue en fonction du temps restant pour atteindre la maturité. Dans ce cas la valeur marchande des Titres deviendra nulle à la dernière Date d'Exercice possible. <i>Risques liés aux Titres Call Turbo</i> Si le prix du Sous-Jacent diminue, les Porteurs de Titres pourraient perdre la totalité de leur capital investi. <i>Risques liés aux Titres Put Turbo</i> Si le prix du Sous-Jacent augmente, les Porteurs de Titres pourraient perdre la totalité de leur capital investi. <i>Risques liés à la Barrière de Knock-Out</i> Si un Cas de Knock-out survient, le Porteur de Titre pourrait subir une perte immédiate partielle ou totale de son investissement, ou perdre le droit de demander le versement de certains montants liés aux Titres. <i>Risques liés aux Cas de Rappel</i> Si au moins un Cas de Rappel se produit l'Emetteur est en droit de racheter de manière exceptionnelle les Titres à leur valeur marchande. Si la valeur marchande des Titres au moment opportun est inférieure au Prix d'Emission ou au prix d'achat, le Porteur de Titres concerné subira une perte totale ou partielle de son capital investi même si les Titres prévoient un versement minimum conditionnel. <i>Risques liés aux Cas de Perturbation du Marché</i> L'Agent de Calcul peut différer les valorisations et les versements et effectuer des déterminations selon son appréciation raisonnable. Les Porteurs de Titres ne sont pas en droit d'exiger des intérêts en
--	--	--

		raison de tels délais de paiement. <i>Risques liés aux effets négatifs des accords de couverture par l'Emetteur sur les Titres</i> La conclusion ou la liquidation des opérations de couverture par l'Emetteur pourraient, dans certains cas, nuire au prix du Sous-Jacent ou de ses composants. • Principaux risques relatifs au Sous-Jacent ou ses composants <i>Risques généraux</i> <i>Absence de droit de propriété concernant le Sous-Jacent ou ses composants</i> Le Sous-Jacent ou ses composants ne seront pas détenus par l'Emetteur pour le bénéfice des Porteurs de Titres, et par conséquent, les Porteurs de Titres n'obtiendront aucun droit de propriété (par exemple, droits de vote, droits de percevoir des dividendes, paiements ou d'autres distributions, ou autres droits) concernant le Sous-Jacent ou ses composants. <i>Risques principaux relatifs à des actions</i> La performance de Titres liés à des Actions (c-à-d. Titres dont les Sous-Jacents sont des indices et dont les composants de l'indice sont des actions) dépend de la performance des actions en question, qui peut dépendre de certains facteurs. Les versements de dividendes peuvent avoir un effet négatif pour le Porteur de Titre. <i>Risques principaux relatifs aux indices</i> La performance des Titres liés à des indices dépend de la performance des indices en question, qui dépend en grande partie de la composition et de la performance des composants de ces indices. L'Emetteur n'a d'influence ni sur l'indice en question ni le concept de l'indice. De manière générale, la responsabilité du sponsor d'un indice n'est pas engagée. En général, un indice peut être modifié, résilié ou remplacé à tout moment par un autre indice lui succédant. Les Porteurs de Titres ne bénéficient pas, ou alors seulement en partie, des dividendes ou autres distributions liés à des composants de l'indice. Les Indices peuvent être affectés de manière disproportionnée négative en cas de développement défavorable dans un pays, une région ou un secteur industriel. Les indices peuvent prévoir des frais qui impactent leur performance de manière négative. En raison des mesures réglementaires dans l'avenir l'indice ne peut pas ou seulement aux conditions

		modifiées, entre autres, être utilisé comme Sous-Jacent des Titres. Les Titres ne sont pas à capital garanti. Les investisseurs doivent être conscients qu'ils sont susceptibles de perdre tout ou partie de la valeur de leur investissement.
