What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank,

risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, a strong rise in energy costs and raw material prices, severe supply bottlenecks and further political uncertainties such as the tensions between the US and China about trade and Taiwan could lead to a more severe slowdown. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Bonus Cap Securities with cash settlement (with continuous Barrier observation) (Non-Quanto)

Underlying: LVMH Moët Hennessy - Louis Vuitton SE (ISIN: FR0000121014)

The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of France. The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System.

Issuance, Nominal Amount and Term

The Securities will be issued on 7 November 2023 in Euro (EUR) (the "**Specified Currency**"), without a Nominal Amount as up to 500,000 Certificates. The Securities have a definite term.

Redemption of the Securities

The Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency, which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred. The Security Holder receives the Redemption Amount in the Specified Currency, which is calculated by multiplying the Final Reference Price by the Ratio.

The Redemption Amount will not be greater than the Maximum Amount.

Additional definitions and product terms

Barrier Event means that any published price of the Underlying is equal to or lower than the Barrier during the Barrier Observation Period in the case of continuous observation.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Reference Price	Ratio	Barrier	Maximum Amount	Barrier Observation Period	Final Observation Date	Final Payment Date
Closing price	0.1	EUR 550	EUR 90.00	3 Nov 2023 – 15 Mar 2024	15 Mar 2024	22 Mar 2024

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, if price quotation of the Underlying on the relevant exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying).

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to listing will be made with effect from 3 November 2023 on the following multilateral trading facilities (MTF): Euronext Access Paris

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Underlying: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.
