- (2) *Issuer's Regular Call Right:* The Issuer may at each Banking Day starting on the First Call Date (each such date a "**Call Date**") call the Securities completely but not partially (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions.

The Issuer shall give notice of such call at least seven Banking Days prior to the relevant Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and shall specify the relevant Call Date.

The Redemption Right of the Security Holders remains unaffected until the last Redemption Date immediately preceding the Call Date.

- (3) *Issuer's extraordinary call right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent using its reasonable judgment and acting in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the extraordinary call becomes effective: the price of the Underlying, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the

provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine using its reasonable judgment and acting in good faith the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 using its reasonable judgment and acting in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may, in particular and in accordance with paragraph (1) above, replace the Underlying with a replacement underlying and if necessary redefine the Product and Underlying Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the Index (e.g. dividends) and, if applicable, fees and costs included in the Index.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph 5 below), every reference to Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions of these Securities shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in these Terms and Conditions of these Securities shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions of these Securities shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in these Terms and Conditions of these Securities shall be deemed to refer to the New Index Calculation Agent.

- (4) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to these Terms and Conditions of these Securities is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").

- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

The market value of the Securities regularly falls, if the value of the Reference Underlying rises, and regularly rises, if the value of the Reference Underlying falls (short).

The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of France. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System.

On the Redemption Date or the Call Date, as applicable, the Security Holder receives the Redemption Amount.

The Redemption Amount is calculated by multiplying the Relevant Reference Price by the Ratio.

Additional definitions and product terms

Observation Date means the fifth Banking Day prior to each Redemption Date and each Call Date.

Closing price	0.0103964729	1% (1%)	5% (20%)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying - possibly even significantly - falls and consequently the Security Holder will suffer a significant loss of his invested capital. Due to the Leverage Factor comprised in the Underlying, there is even an increased risk of total loss compared to a direct investment in the Reference Underlying.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the

Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

Risques liés aux activités spécifiques de l'Emetteur: Risques découlant du cours normal des activités commerciales du Groupe HVB, ce qui comprend le risque de crédit dans le cadre de ses activités de prêt, le risque de marché lié aux activités de négociation ainsi que les risques d'autres secteurs d'activité tels que les activités immobilières du Groupe HVB pourraient avoir un effet défavorable sur les résultats d'exploitation (*operating results*), les actifs et la situation financière du Groupe HVB.

Risques juridiques et réglementaires: Les changements affectant le cadre réglementaire et statutaire de HVB pourraient entraîner une hausse des coûts du capital et une augmentation des coûts pour la mise en œuvre des exigences réglementaires. En cas de non-respect des exigences réglementaires, des lois (fiscales), des règlements, des dispositions légales, des accords, des pratiques obligatoires et des normes éthiques, la perception du Groupe HVB ainsi que ses revenus et sa situation financière pourraient être négativement affectées.

Quels sont les principaux risques spécifiques aux Titres?

Les facteurs de risque spécifiques aux Titres, qui de l'avis de l'Emetteur sont significatifs, sont décrits ci-dessous:

Risque lié au rang et aux caractéristiques des Titres en cas de défaillance de l'Emetteur: Les Porteurs de Titres supportent le risque d'insolvabilité de l'Emetteur. De plus, les Porteurs de Titres peuvent faire l'objet de mesures de résolution à l'égard de l'Emetteur si ce dernier manque ou est susceptible de manquer à ses obligations.

Risques spécifiques liés au profil de paiement des Titres: Il existe un risque particulier que le prix du Sous-jacent - probablement même substantiellement - baisse et que par conséquent le Porteur de Titres subisse une perte importante de son capital investi. Du fait de l'Elément de Levier compris dans le Sous-Jacent, il existe même un risque accru de perte totale de son investissement par rapport à un investissement direct dans le Sous-Jacent de Référence.

Risques découlant des Modalités des Titres: Les Porteurs de Titres courent un risque de perte si les Titres sont résiliés par l'Emetteur. Les Titres feront l'objet d'un remboursement à leur juste valeur de marché. Ce montant peut être inférieur au montant que le Porteur de Titres aurait reçu s'il n'y avait pas eu de résiliation extraordinaire des Titres. En outre, les Porteurs de Titres supportent un risque de réinvestissement. De plus, les Porteurs de Titres supportent un risque de perte en cas d'ajustement des Modalités ou en cas de perturbation du marché.

Risques liés à l'achat, la détention ou la vente des Titres: Les Porteurs de Titres supportent le risque que le prix de marché des Titres soit soumis à de fortes fluctuations pendant la durée de vie des Titres et que le Porteur de Titres ne soit pas en mesure d'acheter ou de vendre les Titres à un moment précis ou à un prix déterminé.

Risques liés au Sous-Jacent lorsqu'il s'agit d'un indice: Les Titres entraînent des risques pour les Porteurs de Titres qui sont similaires à ceux liés aux investissements directs dans un portefeuille comparable d'actifs sous-jacents à l'Indice concerné. Les variations de la valeur des Composants de l'Indice affectent par conséquent directement le prix de l'Indice.
