§ 3

Exercise Right, Exercise, Knock-out, Exercise Notice, Extraordinary Automatic Exercise, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the **"Exercise Notice"**) to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited to the account of the Issuer prior to 1:00 p.m. (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 1:00 p.m. (Munich local time), the Exercise Right is deemed to be effectively exercised on that Trading Day, on which

the Securities will be credited to the account of the Issuer prior to 1:00 p.m. (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 1:00 p.m. (Munich local time) of the fifth Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

- (5) *Extraordinary Automatic Exercise:* Subject to the occurrence of a Knock-out Event, the Securities shall be extraordinary automatically exercised on the tenth Banking Day ("**Extraordinary Automatic Exercise Date**") following the day on which the Strike has been specified for the first time as zero (0), and the Differential Amount will be paid for each Security. In case of an extraordinary automatic exercise the Extraordinary Automatic Exercise Date is deemed to be the respective Valuation date. The Issuer will give notice of such extraordinary automatic exercise and the respective Valuation Date on fifth Banking Day prior to the Extraordinary Automatic Exercise Date pursuant to the provisions of § 6 of the Special Conditions.
- (6) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount, Knock-out Amount

- (1) *Differential Amount:* The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Differential Amount} = (\text{Relevant Reference Price} - \text{Strike}) \times \text{Ratio} / \text{FX (final)}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) *Knock-out Amount:* The Knock-out Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Knock-out Amount} = (\text{Exercise Price} - \text{Strike}) \times \text{Ratio} / \text{FX (final)}$$

However, the Knock-out Amount is not lower than the Minimum Amount.

- (3) When calculating or, respectively, determining the Differential Amount or, respectively, the Knock-out Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Regular Call Right, Issuer's Extraordinary Call Right

- (1) *Issuer's Regular Call Right:* The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right:* Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the first Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent using its reasonable judgment and acting in good faith under then prevailing circumstances.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. Should a Market Disruption Event with respect to the Underlying occur during a Dissolution Period, the respective Dissolution Period will be extended by the time, the Market Disruption Event has lasted.

Any Payment Date relating to such Valuation Date or Dissolution Period, as the case may be, shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine using its reasonable judgment and acting in good faith the respective Reference Price or, respectively, the Exercise Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price or, respectively, Exercise Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the financial position of the Security Holders. This Reference Price shall be deemed to be the relevant price of the Underlying with respect to the determination of the occurrence of a Knock-out Event, even though it has not been published on the Screen Page for the Continuous Observation.

Adjustments, Type of Adjustment, Replacement Specification, Notification

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 using its reasonable judgment and acting in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer, in particular if the circumstance that triggered the Adjustment Event has not only an insignificant impact on the economic characteristics of the Securities; whether this is the case shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Replacement of the FX Exchange Rate:* The Calculation Agent may, in the event of a currency reform or currency conversion with respect to the FX Exchange Rate, replace the FX Exchange Rate with a Replacement Exchange Rate and, if necessary, redefine the Product and Underlying Data. The "**Replacement Exchange Rate**" can be another exchange rate which is composed of the currency of the original FX Exchange Rate not affected by the Adjustment Event and the new or amended currency of the country, region or jurisdiction affected by the currency reform or currency conversion in its function as legal means of payment and/or official currency unit. The Calculation Agent may, if available, take into account an officially published conversion rate. If the Calculation Agent determines a Replacement Exchange Rate with regard to the FX Exchange Rate, any reference in these Terms and Conditions to the FX Exchange Rate shall be deemed to be a reference to the Replacement Exchange Rate as of the Adjustment Date (as defined in paragraph (4) below), unless the context indicates otherwise.
 - (b) *Replacement FX:* In the event that the method of determination and/or publication of the fixing of the FX Exchange Rate by the Fixing Sponsor is changed in a manner that is not merely insignificant, the Calculation Agent may replace the FX by another method for the fixing and publication of the FX Exchange Rate (the "**Replacement FX**") and, if necessary, redefine the Product and Underlying Data. The "Replacement FX" may be, in particular, a fixing for the

FX Exchange Rate officially published by a central bank or any other determination and publication of the FX Exchange Rate by an established provider of market data. If the Calculation Agent determines a Replacement FX with respect to FX, any reference in these Terms and Conditions to the FX shall be deemed to be a reference to the Replacement FX as of the Adjustment Date (as defined in paragraph (4) below), unless the context indicates otherwise.

- (c) *Replacement of the Fixing Sponsor:* In the event that the FX Exchange Rate is no longer determined and published by the Fixing Sponsor, the Calculation Agent has the right to determine the calculations or determinations described in these Terms and Conditions on the basis of the determinations and publications of another person, company or institution (the "**New Fixing Sponsor**"). If necessary, the Calculation Agent may also determine a Replacement FX in accordance with subparagraph (b) above. If the Calculation Agent determines a New Fixing Sponsor, then, as of the Adjustment Date (as defined in paragraph (4) below), any reference in these Terms and Conditions to the Fixing Sponsor shall be deemed to be a reference to the New Fixing Sponsor, unless the context indicates otherwise.
- (3) *Replacement Specification:* If a rate of the FX Exchange Rate as determined and published by the Fixing Sponsor and used by the Calculation Agent according to these Terms and Conditions will be subsequently corrected and the correction (the "**Corrected Value**") will be published by the Fixing Sponsor after the original publication but prior to the Redemption Date, the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again determine the respective value by using the Corrected Value (the "**Replacement Specification**") and notify the Issuer pursuant to § 6 of the General Conditions. However, if the Corrected Value is notified to the Calculation Agent less than two Banking Days before the day on which a payment shall occur that is partially or entirely determined by reference to the rate of the Underlying, then the relevant value is not specified again.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Replacement Reference Rate, Adjustment, Interest Rate Adjustment Factor or Spread, Notices

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Interest Determination Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")

- (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the administrator of the Reference Rate, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
- (b) is typically used as a Replacement Reference Rate for comparable securities (in particular with a view to the Underlying Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
- (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Underlying Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
- (d) is determined by the Issuer using its reasonable judgement and acting in good faith with a view to the Underlying Currency and the expected term in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Germany.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Interest Determination Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.

- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of the Securities using its reasonable judgement and acting in good faith. This includes in particular:
 - (a) the method of calculation or determination of the Reference Rate (including any rounding rules); this includes the application of an interpolation or a Reference Rate calculation by means of a formula on a daily interest basis;
 - (b) the relevant Screen Page, Reference Financial Centre;
 - (c) the Interest Determination Date (including the relevant Banking Days), which may be postponed from the beginning of the relevant Interest Period to the end thereof; and/or
 - (d) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
- or – to the extent that the Calculation Agent determines that the

application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –

- (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent using its reasonable judgement and acting in good faith.
- (3) *Adjustment factor or spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an adjustment factor or spread for the purpose of determining or calculating the Reference Rate in such a way that the economic position of the Security Holders remains unchanged to the greatest extent possible.
- (4) *Notices:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) and (3) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a

discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Call Mini Future Securities (Compo)

Underlying: EUR / USD (ISIN: EU0009652759)

The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of France. The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 28 September 2022 in Euro (EUR) (the "**Specified Currency**"), without a nominal amount, as 1,500,000 Certificates. The Securities have an indefinite term. They continue until the exercise of the Exercise Right by the Security Holder or the exercise of the Issuer's Regular Call Right by the Issuer, unless a Knock-out Event occurs. Upon the exercise of such a right, the term of the Securities will end on the respective Exercise Date.

Exercise Right

Subject to the occurrence of a Knock-out Event or unless the Securities are terminated by the Issuer, the Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Exercise Right may be exercised by the Security Holder on each Exercise Date.

The Differential Amount will be calculated by subtracting the Strike from the Relevant Reference Price. The

difference will be multiplied by the Ratio.

In addition, the Differential Amount will be adjusted by the performance of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

The Differential Amount will not be lower than EUR 0.-.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid five Banking Days after the respective Valuation Date.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred.

A Knock-out Event occurs if starting on the First Trade Date the price of the Underlying at any time is on or below the Knock-out Barrier.

The Knock-out Amount will be calculated by subtracting the Strike from the Exercise Price. The difference will be multiplied by the Ratio.

In addition, the Knock-out Amount will be adjusted by the performance of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

The Knock-out Amount will not be lower than EUR 0.-.

Issuer's Regular Call Right

In particular, the proportionate financing costs of the Issuer are taken into account. The financing costs are determined on the basis of a current market interest rate (Reference Rate) and the applicable Risk Management Fee. As a result, the Strike usually approaches the current price of the Underlying, provided the price of the Underlying does not rise accordingly.

Exercise Price means the amount that the Issuer would receive as a result of the liquidation of hedging transactions for an Underlying.

Exercise Date means the last trading day of each month of January, February, March, April, May, June, July, August, September, October, November and December of each year.

Valuation Date means the Exercise Date on which the Exercise Right has been effectively exercised, or the Exercise Date, as the case may be, on which the Issuer has exercised its Regular Call Right.

On the 26 September 2022 the Knock-out Barrier is equal to the Initial Knock-out Barrier. Thereafter, the Knock-out Barrier will regularly be adjusted on the basis of the current Strike and under consideration of the current Stop Loss-Spread. As a result, the Knock-out Barrier usually approaches the current price of the Underlying, provided the price of the Underlying does not rise accordingly.

Relevant Reference Price means the Reference Price of the Underlying on the respective Valuation Date.

Reference Price means the fixing of the Underlying as published at 2 p.m. Frankfurt am Main local time by the Fixing Sponsor on www.bloomberg.com/markets/currencies/fx-fixings.

Reference Rate means the Difference between the Reference Rate (1) and the Reference Rate (2).

Ratio	Initial Knock-out Barrier*	Initial Strike*	Reference Rate (1)	Reference Rate (2)	Initial Risk Management Fee*	Initial Stop Loss-Spread*

* Values as of 26 September 2022. After this date, the values may be different.

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, a change in law or the Underlying is no longer determined and published by the Fixing Sponsor and no suitable New Fixing Sponsor is available or could have been determined).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a not only immaterial modification in the method of determining and/or publication of the fixings of the Underlying by the Fixing Sponsor).

Extraordinary Automatic Exercise: If the Strike is determined with a value of zero (0), the Securities are automatically exercised and be redeemed at the Differential Amount.

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank pari passu with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to listing will be made with effect from 26 September 2022 on the following multilateral trading facilities (MTF): Euronext Access.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will fall and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. The risk of the occurrence of a Knock-out Event may increase significantly due to the regular adjustment of the Knock-out Barrier. Upon the occurrence of a Knock-out Event, the term of the Securities ends and the Security Holder suffers a total loss of the amount paid to purchase the Securities. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks related to Compo Securities: The Security Holder bears an additional risk of loss due to the constant movements of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Currency Exchange Rates as Underlying: Currency Exchange Rates depend significantly on the supply and demand on the international currency markets. Supply and demand may change over time. In addition

Currency Exchange Rates depend among others on the following factors: macro-economic factors, speculations and interventions by the central banks and governments as well as general economic and political factors.

Risques liés aux activités spécifiques de l'Emetteur: Risques découlant du cours normal des activités commerciales du Groupe HVB, ce qui comprend le risque de crédit dans le cadre de ses activités de prêt, le risque de marché lié aux activités de négociation ainsi que les risques d'autres secteurs d'activité tels que les activités immobilières du Groupe HVB pourraient avoir un effet défavorable sur les résultats d'exploitation (*operating results*), les actifs et la situation financière du Groupe HVB.

3. Section – Informations clés sur les Titres

Quels sont les principales caractéristiques des Titres?

Type de Produit, Sous-Jacent et nature des Titres

Type de Produit: Titres Call Mini Future (*Call Mini Future Securities*) (Compo)

Sous-Jacent: EUR / USD (ISIN: EU0009652759)

Les Titres, quant à leur forme et leur régime, ainsi que tous les droits et obligations y afférents, seront régis par le droit français. Les Titres seront représentés par une inscription en compte et enregistrés dans les livres du Système de Compensation. Le transfert des Titres s'opère par inscription sur les comptes correspondants ouverts dans le Système de Compensation. Le code ISIN (*International Securities Identification Number*) des Titres est indiqué à la Section 1.

Emission, Valeur Nominale et Maturité

Les Titres seront émis le 28/09/2022 et libellés en euros (EUR) (la "**Devise Prévue**") sans valeur nominale, avec un nombre de 1.500.000 Certificats. Les Titres sont à durée indéterminée. Ils existent jusqu'à l'exercice du Droit d'Exercice par le Porteur des Titres ou l'exercice de Droit d'Achat Ordinaire de l'Emetteur par l'Emetteur, à moins qu'un Evénement Knock-out se produise. En cas d'exercice de l'une de ces options, l'échéance des Titres se terminera à la Date d'Exercice correspondante.

Droit d'Exercice

Sous réserve de la survenance d'un Evénement Knock-out et à moins que les Titres n'aient été résiliés par l'Emetteur, le Porteur de Titres a le droit de demander à l'Emetteur le paiement du Montant Différentiel par Titre (Droit d'Exercice).

Le Droit d'Exercice peut être exercé par le Porteur de Titres à chaque Date d'Exercice.

Le Montant Différentiel sera calculé en retranchant le Strike du Prix de Référence Concerné. La différence sera multipliée par le Ratio.

De plus, le Montant Différentiel sera ajusté par la performance du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent est traité ou publié (Compo).

Le Montant Différentiel ne sera pas inférieur à 0,- euro.

Dès l'exercice effectif du Droit d'Exercice, le Montant Différentiel sera payé cinq Jours de Banque après la Date de Constatation correspondante.

Knock-out

Dès la survenance d'un Evénement Knock-out, le Droit d'Exercice expire et le Montant Knock-out sera payé pour chaque Titre.

Le Montant Knock-out sera payé cinq Jours de Banque après le jour où l'Evénement Knock-out est survenu.

Un Evénement Knock-out survient si à partir de la Première Date de Négociation le prix concerné du Sous-Jacent est à tout moment inférieur ou égal à la Barrière de Knock-out.

Le Montant Knock-out sera calculé en retranchant le Strike du Prix d'Exercice. La différence sera multipliée par le Ratio.

De plus, le Montant Knock-out sera ajusté par la performance du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent est traité ou publié (Compo).

Le Montant Knock-out ne sera pas inférieur à 0,- euro.

Droit d'Achat Ordinaire

L'Emetteur peut résilier les Titres à toute Date d'Exercice en totalité mais non en partie et les rembourser au Montant Différentiel.

Définitions supplémentaires et modalités du produit

Au 26/09/2022, le Strike est égal au Strike Initial. Ensuite, le Strike sera ajusté à chaque jour calendaire. En particulier, les coûts de financement proportionnés de l'Emetteur sont pris en compte. Les coûts de financement sont déterminés sur la base d'un taux d'intérêt de marché actuel (Reference Rate) et des Frais de Gestion des Risques applicables. De cette manière, le Strike se rapproche généralement du prix actuel du Sous-Jacent, à conditions que le prix du Sous-Jacent n'augmente pas en conséquence.

Prix d'Exercice signifie le montant que recevrait l'Emetteur à la suite de la liquidation des transactions de couverture pour un Sous-Jacent.

Date d'Exercice signifie le dernier jour de négociation de chacun des mois de janvier, février, mars, avril, mai, juin, juillet, août, septembre, octobre, novembre et décembre de chaque année.

Date de Constatation signifie la Date d'Exercice à laquelle le Droit d'Exercice a été valablement exercé, ou la Date d'Exercice, selon le cas, à laquelle l'Emetteur a exercé son Droit d'Achat Ordinaire.

Au 26/09/2022 la Barrière de Knock-out est égal à la Barrière de Knock-out Initial. Ensuite, la Barrière de Knock-out

sera régulièrement ajusté sur la base du Strike actuel et en considération du Stop Loss-Spread actuel. De cette manière, la Barrière de Knock-out se rapproche généralement le prix actuel du Sous-Jacent, à condition que le prix du Sous-Jacent n'augmente pas en conséquence.

Prix de Référence Concerné signifie le Prix de Référence du Sous-Jacent à la Date de Constatation correspondante.

Prix de Référence signifie le cours du Sous-Jacent tel que publié à 14 heures (heure locale de Francfort-sur-le-Main) par le Fixing Sponsor sur www.bloomberg.com/markets/currencies/fx-fixings.

Taux de Référence signifie la Différence entre le Taux de Référence (1) et le Taux de Référence (2).

Ratio	Barrière de Knock-out Initiale*	Strike Initial*	Reference Rate (1)	Reference Rate (2)	Frais de Gestion des Risques Initial*	Stop Loss-Spread Initial*
10	USD 0,88	USD 0,87	USD1MFSR=	EURIBOR1MD=	3%	USD 0,01

* Valeurs au 26/09/2022. Après cette date les valeurs peuvent être différentes.

Droits de résiliation extraordinaire: L'Emetteur a le droit de résilier de façon extraordinaire les Titres à leur juste valeur de marché à la survenance de certains Cas de Rappel (*Call Event*) (par exemple, un changement de loi ou le Sous-Jacent n'est plus déterminé et publié par le Fixing Sponsor et aucun Nouveau Fixing Sponsor approprié n'est disponible ou n'a pu être déterminé).

Droit d'ajustement: Les Modalités (*Terms and Conditions*) des Titres peuvent être ajustées par l'Agent de Calcul (*Calculation Agent*) si un Cas d'Ajustement (*Adjustment Event*) survient (par exemple, une modification pas seulement immatérielle dans la méthode de détermination et/ou de publication du fixing du Sous-Jacent par le Fixing Sponsor).

Exercice Automatique Exceptionnel: Si la Valeur de Référence (Strike) atteint zéro (0), les Titres feront l'objet d'un exercice automatique et seront remboursés au Montant Différentiel.

Rang des Titres: Les engagements découlant des Titres constituent des engagements directs et non-assortis de sûretés de l'Emetteur, venant pari passu, par rapport à tous les autres engagements non-assortis de sûretés et non-subordonnés de l'Emetteur. En cas de résolution (renflouement interne ou "bail in"), les Titres viendront, dans l'ordre de priorité des passifs, uniquement après tous les passifs non-privilegiés de l'Emetteur.

Où les Titres seront-ils négociés?

Aucune demande d'admission des Titres à la négociation sur un marché réglementé n'a été effectuée. Cependant, une demande d'admission à la cotation prenant effet au 26/09/2022 sera effectuée sur les systèmes multilatéraux de négociations (SMN) suivants: Euronext Access.

Quels sont les principaux risques spécifiques aux Titres?

Les facteurs de risque spécifiques aux Titres, qui de l'avis de l'Emetteur sont significatifs, sont décrits ci-dessous:

Risque lié au rang et aux caractéristiques des Titres en cas de défaillance de l'Emetteur: Les Porteurs de Titres supportent le risque d'insolvabilité de l'Emetteur. De plus, les Porteurs de Titres peuvent faire l'objet de mesures de résolution à l'égard de l'Emetteur si ce dernier manque ou est susceptible de manquer à ses obligations.

Risques spécifiques liés au profil de paiement des Titres: Il existe un risque particulier que le cours du Sous-Jacent chute et que la valeur des Titres et les paiements soient négativement affectés de manière disproportionnée. En conséquence, le Porteur de Titres peut subir une perte du montant payé pour acquérir les Titres. Même une perte totale est possible. Le risque de survenance d'un Evénement Knock-out peut augmenter significativement en raison de l'ajustement régulier de la Barrière de Knock-out. Dès la survenance d'un Evénement Knock-out, le terme des Titres est déchu et le Porteur de Titres subit une perte totale du montant payé pour acquérir les Titres. La performance du Sous-Jacent peut avoir un effet négatif disproportionné sur la valeur des Titres en raison de l'effet de levier caractéristique des Titres.

Risques liés aux Titres Compo: Le Porteur de Titre supporte un risque supplémentaire de perte du fait des fluctuations constantes du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent fait

l'objet de négociations ou de publication (Compo).

Risques découlant des Modalités des Titres: Les Porteurs de Titres courent un risque de perte si les Titres sont résiliés par l'Emetteur. Les Titres feront l'objet d'un remboursement à leur juste valeur de marché. Ce montant peut être inférieur au montant que le Porteur de Titres aurait reçu s'il n'y avait pas eu de résiliation extraordinaire des Titres. En outre, les Porteurs de Titres supportent un risque de réinvestissement. De plus, les Porteurs de Titres supportent un risque de perte en cas d'ajustement des Modalités ou en cas de perturbation du marché.

Risques liés à l'achat, la détention ou la vente des Titres: Les Porteurs de Titres supportent le risque que le prix de marché des Titres soit soumis à de fortes fluctuations pendant la durée de vie des Titres et que le Porteur de Titres ne soit pas en mesure d'acheter ou de vendre les Titres à un moment précis ou à un prix déterminé.

Risques liés au Sous-Jacent lorsqu'il s'agit de Taux de Change de Devises: Les Taux de Change de Devises dépendent grandement de l'offre et de la demande sur les marchés monétaires internationaux. L'offre et la demande peuvent varier dans le temps. De plus les Taux de Change de Devises dépendent entre autres des facteurs suivants: facteurs macro-économiques, spéculations et interventions des banques centrales et des gouvernements ainsi que facteurs économiques et politiques généraux.

En outre, l'Emetteur peut détenir des informations sur le Sous-Jacent qui ne sont pas accessibles au public. Il n'existe aucune obligation de divulguer ces informations aux Porteurs de Titres. En ce qui concerne la négociation des Titres, il existe un conflit d'intérêt pour l'Emetteur étant donné que l'Emetteur est également le Teneur de Marché (*Market Maker*) sur la plateforme Euronext Paris et en conséquence, par exemple, peut déterminer les prix des Titres. L'Emetteur est également l'arrangeur, l'Agent de Calcul et l'Agent Payeur (*Paying Agent*) des Titres. Des Distributeurs pourraient recevoir des incitations de la part de l'Emetteur.
