§ 3

Exercise Right, Exercise, Knock-out, Exercise Notice, Extraordinary Automatic Exercise, Payment

- (1) *Exercise Right:* Subject to the occurrence of a Knock-out Event, the Security Holder shall be entitled, according to the Terms and Conditions of these Securities, to demand for each Security the payment of the Differential Amount from the Issuer.
- (2) *Exercise:* The Exercise Right can be exercised by the Security Holder on each Exercise Date prior to 10:00 a.m. (Munich local time) pursuant to the provisions of paragraph (4) of this § 3.
- (3) *Knock-out:* Upon the occurrence of a Knock-out Event, the Exercise Right forfeits and the Knock-out Amount will be paid for each Security.
- (4) *Exercise Notice:* The Exercise Right shall be exercised by the Security Holder by transmission of a duly completed written Exercise Notice (the "**Exercise Notice**") to the Principal Paying Agent possibly per facsimile, using the form of notice which may be obtained from the Website of the Issuer or, respectively by specifying all information and declarations to the facsimile number set out in such form of notice and by transferring the Securities stated in the Exercise Notice to the account of the Issuer, which is set out in the respective form of the Exercise Notice. For this purpose the Security Holder must instruct its depositary bank, which is responsible for the order of the transfer of the specified Securities.

The Exercise Right is deemed to be effectively exercised on that day on which (i) the Principal Paying Agent receives the duly completed Exercise Notice prior to 10:00 a.m. (Munich local time) and (ii) the Securities specified in the Exercise Notice will be credited

to the account of the Issuer prior to 12:00 p.m. (noon) (Munich local time).

For Securities, for which a duly completed Exercise Notice has been transmitted in time, but which has been credited to the Issuer's account after 12:00 p.m. (noon) (Munich local time), the Exercise Right is deemed to be effectively exercised on that Trading Day, on which the Securities will be credited to the account of the Issuer prior to 12:00 p.m. (noon) (Munich local time).

For Securities, for which a Security Holder transmits an Exercise Notice, which does not comply with the aforementioned provisions, or, if the Securities specified in the Exercise Notice have been credited to the Issuer's Account after 12:00 p.m. (noon) (Munich local time) of the fifth Banking Day following the transmission of the Exercise Notice, the Exercise Right is deemed to be not effectively exercised.

The amount of the Securities for which the Exercise Right shall be exercised, must comply with the Minimum Exercise Amount or an integral multiple thereof. Otherwise the amount of the Securities specified in the Exercise Notice will be rounded down to the nearest multiple of the Minimum Exercise Amount and the Exercise Right is deemed to be not effectively exercised with regard to the amount of Securities exceeding such amount. An Exercise Notice on fewer Securities than the Minimum Exercise Amount is invalid and has no effect.

Securities received by the Issuer and for which no effective Exercise Notice exists or the Exercise Right deems to be not effectively exercised, will be retransferred by the Issuer without undue delay at the expense of the relevant Security Holder.

Subject to the aforementioned provisions, the transmission of an Exercise Notice constitutes an irrevocable declaration of intent of the relevant Security Holder to exercise the respective Securities.

(5) *Extraordinary Automatic Exercise:* Subject to the occurrence of a Knock-out Event, the Securities shall be extraordinary automatically exercised on the tenth Banking Day ("**Extraordinary Automatic Exercise Date**") following the day on which the Strike has been specified for the first time as zero (0), and the Differential Amount will be paid for each Security. In case of an extraordinary automatic exercise the Extraordinary Automatic Exercise Date is deemed to be the respective Valuation date. The Issuer will give notice of such extraordinary automatic exercise and the respective Valuation Date on fifth Banking Day prior to the Extraordinary Automatic Exercise Date pursuant to the provisions of § 6 of the Special Conditions.

(6) *Payment:* The Differential Amount will be paid five Banking Days after the respective Valuation Date pursuant to the provisions of § 6 of the Special Conditions.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred, pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Differential Amount, Knock-out Amount

- (1) *Differential Amount*: The Differential Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Differential Amount} = (\text{Relevant Reference Price} - \text{Strike}) \times \text{Ratio} / \text{FX (final)}$$

However, the Differential Amount is not lower than the Minimum Amount.

- (2) *Knock-out Amount*: The Knock-out Amount per Security equals an amount in the Specified Currency, which will be calculated or, respectively, specified by the Calculation Agent as follows:

$$\text{Knock-out Amount} = (\text{Exercise Price} - \text{Strike}) \times \text{Ratio} / \text{FX (final)}$$

However, the Knock-out Amount is not lower than the Minimum Amount.

- (3) When calculating or, respectively, determining the Differential Amount or, respectively, the Knock-out Amount, no fees, commissions or other costs charged by the Issuer or a third party authorised by the Issuer, will be taken into account.

§ 5

Issuer's Regular Call Right, Issuer's Extraordinary Call Right

- (1) *Issuer's Regular Call Right*: The Issuer may call the Securities in whole but not in part at each Exercise Date (the "**Regular Call Right**") and redeem them pursuant to § 4 (1) of the Special Conditions at the Differential Amount. In the case of such a call, the Exercise Date, at which the Issuer exercises its Regular Call Right (the "**Call Date**") is deemed to be the Valuation Date. The Exercise Right remains unaffected until the Call Date. With the beginning of the Call Date all Exercise Rights forfeit.

The Issuer will give notice of such call at least one month prior to the Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and will specify the relevant Call Date.

The Differential Amount will be paid five Banking Days after the Call Date pursuant to the provisions of § 6 of the Special Conditions.

- (2) *Issuer's Extraordinary Call Right*: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent using its reasonable judgment and acting in good faith under then prevailing circumstances.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards. However, at least the Minimum Amount shall be paid.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such a payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on a Valuation Date, the respective Valuation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists. Should a Market Disruption Event with respect to the Underlying occur during a Dissolution Period, the respective Dissolution Period will be extended by the time, the Market Disruption Event has lasted.

If a FX Market Disruption Event occurs on a FX Valuation Date, the respective FX Valuation Date will be postponed to the next following FX Calculation Date on which the FX Market Disruption Event no longer exists.

Any Payment Date relating to such Valuation Date, Dissolution Period or FX Valuation Date, as the case may be, shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days the Calculation Agent shall determine using its reasonable

judgment and acting in good faith the respective Reference Price or, respectively, the Exercise Price required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price or, respectively, Exercise Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the financial position of the Security Holders. This Reference Price shall be deemed to be the relevant price of the Underlying with respect to the determination of the occurrence of a Knock-out Event, even though it has not been published on the Screen Page for the Continuous Observation.

Should the FX Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine using its reasonable judgment and acting in good faith the respective FX. The FX-fixing required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on the 9th Banking Day, taking into account the financial position of the Security Holders.

§ 8

Replacement Reference Market, Replacement Reference Price, Replacement Specification, Notifications

- (1) *Replacement Reference Market:* If a Reference Market Replacement Event occurs the Calculation Agent is authorised to replace the Reference Market with a replacement reference market. As "**Replacement Reference Market**" another market can be considered on which there is usually sufficient liquid trading in the commodity which forms the Underlying; whether a replacement is to be made and which Replacement Reference Market is to be used shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

The economic characteristics of the Securities shall remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer. The Calculation Agent will only make a replacement if the replacement is reasonable for the Security Holders as well as the Issuer; whether this is the case shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

If the Calculation Agent designates a Replacement Reference Market, from the Adjustment Date on (as defined in paragraph (4) below), every reference in the Terms and Conditions to Reference Market shall be a reference to the Replacement Reference Market, unless the context requires otherwise.

- (2) *Replacement Reference Price:* If a Reference Price Replacement Event occurs, the Calculation Agent is authorised to replace the Reference Price with another official reference price published by the Reference Market (the "**Replacement Reference Price**") and, if necessary, redefine the Adjustable Product Data of these Securities; whether a replacement is to be made and which Replacement Reference Price is to be used shall be determined by the Calculation Agent using its reasonable judgment and acting in

good faith.

The economic characteristics of the Securities shall remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer. The Calculation Agent will only make a replacement if the replacement is reasonable for the Security Holders as well as the Issuer; whether this is the case shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.

If the Calculation Agent designates a Replacement Reference Price, from the Adjustment Date on (as defined in paragraph (4) below), every reference in the Terms and Conditions to Reference Price shall be a reference to the Replacement Reference Price, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of the Underlying that is published by the Reference Market and that is used pursuant to the Terms and Conditions, is subsequently corrected and the correction (the "**Corrected Value**") is published by the Reference Market within 3 calendar days after the original publication, the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value pursuant to § 6 of the General Conditions by using the Corrected Value (the "**Replacement Specification**").
- (4) *Notifications:* All adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

New Fixing Sponsor, Replacement Exchange Rate

- (1) *New Fixing Sponsor:* In the event that the FX Exchange Rate is no longer determined, reported and/or published by the Fixing Sponsor or, in case of a not only immaterial modification in the method of determination and/or publication the FX Exchange Rate by the Fixing Sponsor (including the time of the determination, reporting and/or publication), the Calculation Agent has the right to determine the calculations or, respectively, specifications of the Calculation Agent described in the Terms and Conditions of these Securities on the basis of the determinations and publications by another person, company or institution (the "**New Fixing Sponsor**"). The Calculation Agent shall determine using its reasonable judgment and acting in good faith whether such event occurs and which other person, company or institution shall in the future act as the New Fixing Sponsor (the "**New Fixing Sponsor**"). If necessary, the Calculation Agent shall also newly determine using its reasonable judgment and acting in good faith the FX Screen Page (the "**New FX Screen Page**"). The New Fixing Sponsor, the New FX Screen Page and the time of their first application shall be published pursuant to § 6 of the General Conditions. In this case, any reference to the replaced Fixing Sponsor and to the FX Screen Page in the Terms and Conditions of these Securities shall be deemed to refer to the New Fixing Sponsor and to the FX Screen Page.

- (2) *Replacement Exchange Rate:* In the event that FX is no longer determined, reported and/or published, the calculations or, respectively, specifications described in the Terms and Conditions of these Securities shall occur on the basis of price of the FX determined, reported and/or published on the basis of another method, which will be determined by the Calculation Agent using its reasonable judgment and acting in good faith (the "**Replacement Exchange Rate**"). The Replacement Exchange Rate and the time of its first application shall be published pursuant to § 6 of the General Conditions. In this case, any reference to the replaced FX in the Terms and Conditions shall be deemed to refer to the Replacement Exchange Rate.

§ 10

Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Interest Determination Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")
- (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the administrator of the Reference Rate, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
 - (b) is typically used as a Replacement Reference Rate for comparable securities (in particular with a view to the Underlying Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
 - (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Underlying Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
 - (d) is determined by the Issuer using its reasonable judgment and acting in good faith with a view to the Underlying Currency and the expected term in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Germany.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Interest Determination Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-

based interest rate.

- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to the Terms and Conditions of the Securities using its reasonable judgment and acting in good faith. This includes in particular:
- (a) the method of calculation or determination of the Financing Costs; this includes the application of an interpolation or a calculation by means of a formula on a daily interest basis;
 - (b) the method for determination of the Reference Rate (including any rounding rules);
 - (c) the Designated Maturity, which can be shortened or extended;
 - (d) the relevant Screen Page, Reference Rate Time and/or Reference Financial Centre;
 - (e) the Interest Determination Dates, and/or
 - (f) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
 - (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent using its reasonable judgment and acting in good faith.
- (3) *Interest Rate Adjustment Factor or Spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an adjustment factor or spread for the purpose of determining or calculating the Financing Costs in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.
- (4) *Notifications:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) and (3) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be

available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, a strong rise in energy costs and raw material prices, severe supply bottlenecks and further political uncertainties such as the tensions between the US and China about trade and Taiwan could lead to a more severe slowdown. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Call Mini Future Securities (Compo)

The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of France. The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 26 October 2023 in Euro (EUR) (the "**Specified Currency**"), without a nominal amount, as 1,500,000 Certificates. The Securities have an indefinite term. They continue until the exercise of the Exercise Right by the Security Holder or the exercise of the Issuer's Regular Call Right by the Issuer, unless a Knock-out Event occurs. Upon the exercise of such a right, the term of the Securities will end on the respective Exercise Date.

Exercise Right

Subject to the occurrence of a Knock-out Event or unless the Securities are terminated by the Issuer, the Security Holder has the right to demand of the Issuer the payment of the Differential Amount per Security (Exercise Right).

The Exercise Right may be exercised by the Security Holder on each Exercise Date.

The Differential Amount will be calculated by subtracting the Strike from the Relevant Reference Price. The difference will be multiplied by the Ratio.

In addition, the Differential Amount will be adjusted by the performance of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published (Compo).

The Differential Amount will not be lower than EUR 0.00.

Upon the effective exercise of the Exercise Right, the Differential Amount will be paid five Banking Days after the respective Valuation Date.

The Knock-out Amount will be paid five Banking Days after the day, on which the Knock-out Event has occurred.

A Knock-out Event occurs if starting on the First Trade Date the price of the Underlying at any time is on or below the Knock-out Barrier.

The Knock-out Amount will be calculated by subtracting the Strike from the Exercise Price. The difference will be multiplied by the Ratio.

The Knock-out Amount will not be lower than EUR 0.-.

Issuer's Regular Call Right

Additional definitions and product terms

On the 24 October 2023 the Strike is equal to the Initial Strike. Thereafter, the Strike will be adjusted on any calendar day. In particular, the proportionate financing costs of the Issuer are taken into account. The financing costs are determined on the basis of a current market interest rate (Reference Rate) and the applicable Risk Management Fee. As a result, the Strike usually approaches the current price of the Underlying, provided the price of the Underlying does not rise accordingly.

Exercise Price means the amount that the Issuer would receive as a result of the liquidation of hedging transactions for an Underlying.

Exercise Date means the last trading day of each month of January, February, March, April, May, June, July, August, September, October, November and December of each year.

Valuation Date means the Exercise Date on which the Exercise Right has been effectively exercised, or the Exercise Date, as the case may be, on which the Issuer has exercised its Regular Call Right.

On the 24 October 2023 the Knock-out Barrier is equal to the Initial Knock-out Barrier. Thereafter, the Knock-out Barrier will regularly be adjusted on the basis of the current Strike and under consideration of the current Stop Loss-Spread. As a result, the Knock-out Barrier usually approaches the current price of the Underlying, provided the price of the Underlying does not rise accordingly.

Relevant Reference Price means the Reference Price of the Underlying on the respective Valuation Date.

Reference Price	Ratio	Initial Knock-out Barrier*	Initial Strike*	Reference Rate	Initial Risk Management Fee*	Initial Stop Loss-Spread*
LBMA Gold Price PM	0.01	USD 1,925.00	USD 1,900.00	USDSOFR=	5%	USD 25.00

* Values as of 24 October 2023. After this date, the values may be different.

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, the trading of the Underlying on the Reference Market is suspended indefinitely or permanently discontinued and a suitable Replacement Reference Market is not available or could be determined).

Adjustment right: The Calculation Agent may, if necessary, make adjustments to the terms and conditions of the Securities (for example determine a Replacement Reference Market or a Replacement Reference Price).

Extraordinary Automatic Exercise: If the Strike is determined with a value of zero (0), the Securities are automatically exercised and will be redeemed at the Differential Amount.

Status of the Securities: The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

Where will the Securities be traded?

No application for the Securities to be admitted to trading on a regulated market has been made. However, application to listing will be made with effect from 24 October 2023 on the following multilateral trading facilities (MTF): Euronext Access.

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is a particular risk that the price of the Underlying will fall and that the value of the Securities and the payments will be disproportionately adversely affected. As a result, the Security Holder may suffer a loss of the amount paid to purchase the Securities. Even a total loss is possible. The risk of the occurrence of a Knock-out Event may increase significantly due to the regular adjustment of the Knock-out Barrier. Upon the occurrence of a Knock-out Event, the term of the Securities ends and the Security Holder suffers a total loss of the amount paid to purchase the Securities. The performance of the Underlying can have a disproportionately adverse effect on the value of the Securities due to the leverage effect typical for the Securities.

Risks related to Compo Securities: The Security Holder bears an additional risk of loss due to the constant movements of the exchange rate between the Specified Currency and the currency in which the Underlying is traded or published.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Commodities as Underlying: The prices for Commodities can be subject to greater fluctuations, and markets for Commodities can have lower liquidity than e.g. stock markets. Apart from supply and demand the development in the price for a Commodity is influenced by numerous factors (e.g. speculations, political unrest, economic crises and natural disasters).

Quels sont les principaux risques spécifiques à l'Emetteur?

Risques liés à la situation financière de l'Emetteur: Risques que le Groupe HVB ne soit pas en mesure de satisfaire ses obligations de paiement à temps ou dans son intégralité ou qu'il ne soit pas en mesure d'obtenir suffisamment de liquidité lorsque cela est nécessaire ou que la liquidité soit uniquement disponible à des taux d'intérêts plus élevés, et le risque que la banque soit uniquement en position de liquider des actifs sur le marché à un prix réduit ce qui pourrait créer des problèmes de liquidité pour le Groupe HVB et pourrait ainsi se traduire par une capacité limitée à financer ses activités et à répondre à ses besoins de liquidité minimum.

Risques liés aux activités spécifiques de l'Emetteur: Risques découlant du cours normal des activités commerciales du Groupe HVB, ce qui comprend le risque de crédit dans le cadre de ses activités de prêt, le risque de marché lié aux activités de négociation ainsi que les risques d'autres secteurs d'activité tels que les activités immobilières du Groupe HVB pourraient avoir un effet défavorable sur les résultats d'exploitation (*operating results*), les actifs et la situation financière du Groupe HVB.

Risques généraux liés aux activités commerciales de l'Emetteur: Risques de pertes liés à des procédures internes, des systèmes et des personnes inadéquats ou défaillants ou à des événements externes ainsi que des risques causés par des réactions défavorables des parties prenantes dues à leur perception altérée de la banque, les risques de changements négatifs imprévus dans les revenus futurs de la banque de même que les risques émanant des concentrations du risque et/ou des revenus (*earning positions*), pourraient entraîner des pertes financières, une dégradation de la notation de HVB et une augmentation du risque opérationnel (*business risk*) du Groupe HVB.

Risques juridiques et réglementaires: Les changements affectant le cadre réglementaire et statutaire de HVB pourraient entraîner une hausse des coûts du capital et une augmentation des coûts pour la mise en œuvre des exigences réglementaires. En cas de non-respect des exigences réglementaires, des lois (fiscales), des règlements, des dispositions légales, des accords, des pratiques obligatoires et des normes éthiques, la perception du Groupe HVB par le public ainsi que ses revenus et sa situation financière pourraient être négativement affectées.

Risques stratégiques et macroéconomiques: Risques résultant de la reconnaissance tardive ou de l'évaluation incorrecte de la part de la direction des évolutions ou des tendances significatives de l'environnement au sein duquel évolue la banque et les risques liés à l'évolution de la situation économique en Allemagne et à l'évolution des marchés financiers et de capitaux internationaux pourraient avoir un effet négatif sur les actifs, passifs, la position financière et le résultat du Groupe HVB. En particulier, les conséquences du conflit russo-ukrainien, une forte hausse des coûts de l'énergie et des prix des matières premières, de graves goulots d'étranglement au niveau de l'approvisionnement et de nouvelles incertitudes politiques telles que les tensions entre les États-Unis et la Chine concernant les échanges commerciaux et Taïwan pourraient entraîner un ralentissement plus important de l'économie. En outre, la matérialisation de l'un des risques susmentionnés pourrait entraîner des turbulences sur les marchés financiers et de capitaux.

3. Section – Informations clés sur les Titres

Quels sont les principales caractéristiques des Titres?

Type de Produit, Sous-Jacent et nature des Titres

Type de Produit: Titres Call Mini Future (*Call Mini Future Securities*) (Compo)

Sous-Jacent: Or (once) (ISIN: XC0009655157)

Les Titres, quant à leur forme et leur régime, ainsi que tous les droits et obligations y afférents, seront régis par le droit français. Les Titres seront représentés par une inscription en compte et enregistrés dans les livres du Système de Compensation. Le transfert des Titres s'opère par inscription sur les comptes correspondants ouverts dans le

Système de Compensation. Le code ISIN (International Securities Identification Number) des Titres est indiqué à la Section 1.

Emission, Valeur Nominale et Maturité

Les Titres seront émis le 26/10/2023 et libellés en euros (EUR) (la "**Devise Prévue**") sans valeur nominale, avec un nombre de 1.500.000 Certificats. Les Titres sont à durée indéterminée. Ils existent jusqu'à l'exercice du Droit d'Exercice par le Porteur des Titres ou l'exercice de Droit d'Achat Ordinaire de l'Emetteur par l'Emetteur, à moins qu'un Événement Knock-out se produise. En cas d'exercice de l'une de ces options, l'échéance des Titres se terminera à la Date d'Exercice correspondante.

Droit d'Exercice

Sous réserve de la survenance d'un Événement Knock-out et à moins que les Titres n'aient été résiliés par l'Emetteur, le Porteur de Titres a le droit de demander à l'Emetteur le paiement du Montant Différentiel par Titre (Droit d'Exercice).

Le Droit d'Exercice peut être exercé par le Porteur de Titres à chaque Date d'Exercice.

Le Montant Différentiel sera calculé en retranchant le Strike du Prix de Référence Concerné. La différence sera multipliée par le Ratio.

De plus, le Montant Différentiel sera ajusté par la performance du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent est traité ou publié (Compo).

Le Montant Différentiel ne sera pas inférieur à EUR 0.

Dès l'exercice effectif du Droit d'Exercice, le Montant Différentiel sera payé cinq Jours de Banque après la Date de Constatation correspondante.

Knock-out

Dès la survenance d'un Événement Knock-out, le Droit d'Exercice expire et le Montant Knock-out sera payé pour chaque Titre.

Le Montant Knock-out sera payé cinq Jours de Banque après le jour où l'Événement Knock-out est survenu.

Un Événement Knock-out survient si à partir de la Première Date de Négociation le prix concerné du Sous-Jacent est à tout moment inférieur ou égal à la Barrière de Knock-out.

Le Montant Knock-out sera calculé en retranchant le Strike du Prix d'Exercice. La différence sera multipliée par le Ratio.

De plus, le Montant Knock-out sera ajusté par la performance du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent est traité ou publié (Compo).

Le Montant Knock-out ne sera pas inférieur à 0,- euro.

Droit d'Achat Ordinaire

L'Emetteur peut résilier les Titres à toute Date d'Exercice en totalité mais non en partie et les rembourser au Montant Différentiel.

Définitions supplémentaires et modalités du produit

Au 24/10/2023, le Strike est égal au Strike Initial. Ensuite, le Strike sera ajusté à chaque jour calendaire. En particulier, les coûts de financement proportionnés de l'Emetteur sont pris en compte. Les coûts de financement sont déterminés sur la base d'un taux d'intérêt de marché actuel (Reference Rate) et des Frais de Gestion des Risques applicables. De cette manière, le Strike se rapproche généralement du prix actuel du Sous-Jacent, à conditions que le prix du Sous-Jacent n'augmente pas en conséquence.

Prix d'Exercice signifie le montant que recevrait l'Emetteur à la suite de la liquidation des transactions de couverture pour un Sous-Jacent.

Date d'Exercice signifie le dernier jour de négociation de chacun des mois de janvier, février, mars, avril, mai, juin,

juillet, août, septembre, octobre, novembre et décembre de chaque année.

Date de Constatation signifie la Date d'Exercice à laquelle le Droit d'Exercice a été valablement exercé, ou la Date d'Exercice, selon le cas, à laquelle l'Emetteur a exercé son Droit d'Achat Ordinaire.

Au 24/10/2023 la Barrière de Knock-out est égal à la Barrière de Knock-out Initial. Ensuite, la Barrière de Knock-out sera régulièrement ajusté sur la base du Strike actuel et en considération du Stop Loss-Spread actuel. De cette manière, la Barrière de Knock-out se rapproche généralement le prix actuel du Sous-Jacent, à condition que le prix du Sous-Jacent n'augmente pas en conséquence.

Prix de Référence Concerné signifie le Prix de Référence du Sous-Jacent à la Date de Constatation correspondante.

Prix de Référence	Ratio	Barrière de Knock-out Initiale*	Strike Initial*	Reference Rate	Frais de Gestion des Risques Initial*	Stop Loss-Spread Initial*
LBMA Gold Price PM	0,01	USD 1.925	USD 1.900	USDSOFR=	5%	USD 25

* Valeurs au 24/10/2023. Après cette date les valeurs peuvent être différentes.

Droits de résiliation extraordinaire: L'Emetteur a le droit de résilier de façon extraordinaire les Titres à leur juste valeur de marché à la survenance de certains Cas de Rappel (*Call Event*) (par exemple, la négociation du Sous-Jacent sur le Marché de Référence est suspendue indéfiniment ou interrompue de manière permanente et aucun Marché de Référence de Remplacement approprié n'est disponible ou ne peut être déterminé).

Droit d'ajustement: L'Agent de Calcul (*Calculation Agent*) peut, si nécessaire, apporter des ajustements aux termes et conditions des Titres (par exemple déterminer un Marché de Référence de Remplacement (*Replacement Reference Market*) ou un Prix de Référence du Remplacement (*Replacement Reference Price*)).

Exercice Automatique Exceptionnel: Si la Valeur de Référence (Strike) atteint zéro (0), les Titres feront l'objet d'un exercice automatique et seront remboursés au Montant Différentiel.

Rang des Titres: Les Titres constituent des obligations directes, inconditionnelles et non garanties de l'Émetteur. Les Titres ont un rang égal (*pari passu*) à celui de toutes les autres obligations non garanties et non subordonnées, présentes et futures, de l'Emetteur. Exception : les obligations qui ont un privilège ou une subordination en vertu de la loi.

Où les Titres seront-ils négociés?

Aucune demande d'admission des Titres à la négociation sur un marché réglementé n'a été effectuée. Cependant, une demande d'admission à la cotation prenant effet au 24/10/2023 sera effectuée sur les systèmes multilatéraux de négociations (SMN) suivants: Euronext Access.

Quels sont les principaux risques spécifiques aux Titres?

Les facteurs de risque spécifiques aux Titres, qui de l'avis de l'Emetteur sont significatifs, sont décrits ci-dessous:

Risque lié au rang et aux caractéristiques des Titres en cas de défaillance de l'Emetteur: Les Porteurs de Titres supportent le risque d'insolvabilité de l'Emetteur. De plus, les Porteurs de Titres peuvent faire l'objet de mesures de résolution à l'égard de l'Emetteur si ce dernier manque ou est susceptible de manquer à ses obligations.

Risques spécifiques liés au profil de paiement des Titres: Il existe un risque particulier que le cours du Sous-Jacent chute et que la valeur des Titres et les paiements soient négativement affectés de manière disproportionnée. En conséquence, le Porteur de Titres peut subir une perte du montant payé pour acquérir les Titres. Même une perte totale est possible. Le risque de survenance d'un Événement Knock-out peut augmenter significativement en raison de l'ajustement régulier de la Barrière de Knock-out. Dès la survenance d'un Événement Knock-out, le terme des Titres est déchu et le Porteur de Titres subit une perte totale du montant payé pour acquérir les Titres. La performance du Sous-Jacent peut avoir un effet négatif disproportionné sur la valeur des Titres en raison de l'effet de levier caractéristique des Titres.

Risques liés aux Titres Compo: Le Porteur de Titre supporte un risque supplémentaire de perte du fait des

fluctuations constantes du taux de change entre la Devise Prévue et la devise dans laquelle le Sous-Jacent fait l'objet de négociations ou de publication (Compo).

Risques découlant des Modalités des Titres: Les Porteurs de Titres courent un risque de perte si les Titres sont résiliés par l'Emetteur. Les Titres feront l'objet d'un remboursement à leur juste valeur de marché. Ce montant peut être inférieur au montant que le Porteur de Titres aurait reçu s'il n'y avait pas eu de résiliation extraordinaire des Titres. En outre, les Porteurs de Titres supportent un risque de réinvestissement. De plus, les Porteurs de Titres supportent un risque de perte en cas d'ajustement des Modalités ou en cas de perturbation du marché.

Risques liés à l'achat, la détention ou la vente des Titres: Les Porteurs de Titres supportent le risque que le prix de marché des Titres soit soumis à de fortes fluctuations pendant la durée de vie des Titres et que le Porteur de Titres ne soit pas en mesure d'acheter ou de vendre les Titres à un moment précis ou à un prix déterminé.

Risques liés au Sous-Jacent lorsqu'il s'agit de Matières Premières: Les cours des Matières Premières peuvent être soumis à de plus grands fluctuations, et les marchés de Matières Premières peuvent avoir une liquidité plus faible que, par exemple, les marchés actions. Outre l'offre et la demande l'évolution du prix d'une Matière Première est influencée par de nombreux facteurs (par exemple, spéculation, troubles politiques, crises économiques et catastrophes naturelles).

4. Section – Informations clés sur l'offre au public des Titres et/ou l'admission à la négociation sur un marché réglementé

Utilisation du produit de l'émission: Le produit net de l'émission de chaque émission de Titres sera utilisé par l'Emetteur en vue de faire des bénéfices et/ou de couvrir certains risques.

Conflits d'intérêts importants relatifs à l'offre: L'Emetteur peut conclure d'autres transactions et entretenir des relations d'affaires qui pourraient avoir une incidence défavorable sur les Titres. En outre, l'Emetteur peut détenir des informations sur le Sous-Jacent qui ne sont pas accessibles au public. Il n'existe aucune obligation de divulguer ces informations aux Porteurs de Titres. En ce qui concerne la négociation des Titres, il existe un conflit d'intérêt pour l'Emetteur étant donné que l'Emetteur est également le Teneur de Marché (*Market Maker*) sur la plateforme Euronext Paris et en conséquence, par exemple, peut déterminer les prix des Titres. L'Emetteur est également l'arrangeur, l'Agent de Calcul et l'Agent Payeur (*Paying Agent*) des Titres. Des distributeurs pourraient recevoir des incitations de la part de l'Emetteur.
